Simply enjoy all your entertainment

- Easily connect your devices for an enhanced TV experience
- Audio in to enjoy music from iPod/iPhone/MP3 player

PHILIPS

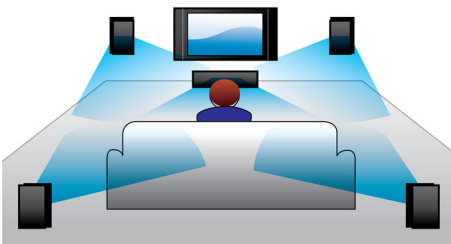

Highlights

DoubleBASS technology

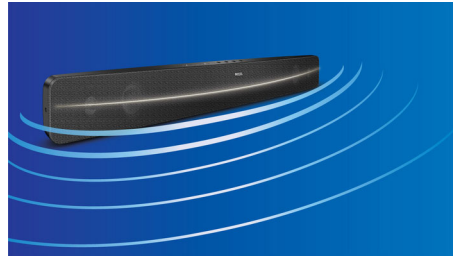

DoubleBASS ensures you hear even the deepest bass tones from compact-sized subwoofers. It captures low frequencies and recreates them in the audible range of the subwoofer - delivering sound with more boom and panache, and ensuring you a full, uncompromised listening experience.

Dolby Digital and DTS

Go digital and get the most out of your music and movies. Even stereo music sounds great because Dolby Digital and DTS Digital Surround enhance digital music and videos, pumping it up so you get truly immersive surround sound out of your home cinema speaker.

Curved SoundBar design

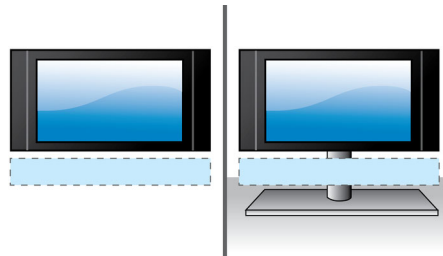

Curved SoundBar design for a wider sound dispersion

Optimized sound quality

Special dust-resistant mesh material protects the speakers from any dirt that may affect sound dispersion.

Flexible placement

Enjoy the versatility of this home theater system that allows you to place it where you will. Whether on a TV stand, on a table or mounted on a wall, the product looks sensational and functions without

compromise. For once, you get to control how your home looks without giving up an incredible home theater experience.

Easily connect your devices

Not only will TV broadcasts now sound better, all the devices that are linked to your TV will also sound sensational. Designed to give you hassle-free entertainment, the connection is made in a one step. All your devices linked with your home theater can be enjoyed on your TV to enhance your TV experience, giving you vibrant, clear and rich tones for awesome music and movie moments.

Audio in

Audio in allows you to easily play your music directly from your iPod/iPhone/iPad, MP3 player, or laptop via a simple connection to your home cinema. Simply connect your audio device to the Audio in jack to enjoy your music with the superior sound quality of the Philips home cinema system.
