

Philips
Clock Radio

TADR402

Helps you wake up. Helps you sleep.

Wake up ready to go. This clock radio will charge your phone and wake you with a gently rising alarm tone or slowly increasing radio volume. There's a sleep timer so you can fall asleep to the radio, and a night-light too.

Simply beautiful

- Gentle Wake. Alarm tone or radio volume slowly increases
- FM digital radio
- Mirror-finished display. Elegant and clear
- USB port. Charge your phone
- Sleep Timer. Drift off listening to your favourite station

Sleep well. Wake gently

- Dual alarm function. Set two alarms
- Repeat alarm for extra snooze time
- Night light. Tap the top of the clock
- Battery backup in event of power failure

Beautifully simple

- Touch control. Tap the display to set time and alarm
- Easy-to-read display with adjustable brightness
- Grey fabric surround. Solid build

PHILIPS

- Product weight: 0.28 kg

Accessories

- Included accessories: Quick start guide, Warranty certificate

Loudspeakers

- Built-in speakers: 1

USB Charging

- 5 V, 1 A

Highlights

Beautifully simple

The mirror-finished display clearly shows the time and doubles as a touch control panel. You can adjust the display brightness.

Battery backup

Battery backup ensures memory of time during power failure

Gentle Wake

The Gentle Wake function deploys a gradually increasing alarm to ease you into the day. You can set it to work with the alarm tone or the radio.

One clock, two wake-up calls

The dual alarm function lets you set two different alarms. Perfect if you're likely to snooze through the first alarm. Or if your partner needs to wake before you.

Sleep Timer

Drift into restful sleep with your favourite radio station playing in the background. You can set the Sleep Timer to play your selected station for up to 2 hours. After your preset time has elapsed, the radio turns off. No more waking in the middle of the night, wondering why the radio is still on!

Ready for the day

A handy USB port lets you use the clock's power supply to charge your phone while you sleep.

Ready for the night

If you need to get up at night, simply press the top of the clock to turn on the night light. A second press decreases the brightness to give you a pleasantly dim glow.
