- PAL/NTSC compatible
- Easy installation and automatic channel search

**Extra touches for your convenience**

- Enjoy up to 3 hours playback with a built-in battery\*
- AC adaptor, car adaptor and AV cable included

**PHILIPS**

# Highlights

## 7" TFT color LCD display(16:9)

The color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A native 16:9 aspect ratio means video display without bars at top and bottom of the picture and without the quality loss that comes from scaling, altering an image to fit on a different screen size.

## DVD, DVD+/-RW, (S)VCD, CD

The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD, and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

## MP3-CD, CD and CD-RW playback

MP3 is a revolutionary compression technology by which large digital music files can

be made up to 10 times smaller without radically degrading their audio quality. A single CD can store up to 10 hours of music.

## View JPEG from picture disc

Play JPEG photos that are saved on your disc. Relive your favorite moments with family and friends anytime you want!

## DivX Certified

With DivX® support, you are able to enjoy DivX encoded videos and movies from the Internet, including purchased Hollywood films. The DivX media format is an MPEG-4 based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW and DVD recordable discs, USB storage and other memory cards for playback on your DivX Certified® Philips device.

# Specifications

## Picture/Display

- Display screen type: LCD TFT
- Diagonal screen size (inch): 7 inch
- Resolution: 480(w)x234(H)x3(RGB)

## Sound

- Output Power: 250mW RMS(built-in speakers)
- Output power (RMS): 10mW RMS(earphone)
- Signal to noise ratio: >80dB(earphone), >62dB(built-in speakers)
