# Highlights

## Incredible Surround™

Incredible Surround™ widens the sound stage, giving you the impression of having extra speakers all around you.

## Metal Grille

The brushed aluminium grilles prevent influence on the performance while being boxed into an enclosed space. Sound from behind the diaphragm radiates evenly and all frequencies are consistently reproduced across the full audio spectrum.

## Universal power adaptor

Use your device anywhere in the world thanks to the universal power adaptor that works with line voltages from 100 to 240 V and automatically provides the correct output voltage.

## Carrying pouch included

Look after your headphone and stop the cable getting tangled by storing it in this handy soft pouch.
