Weight: 13 kg

Accessories

Included accessories: AC Power Cord, Batteries for remote control, Quick start guide, Remote Control, Warranty certificate, Audio Cable, Safety warranty sheet

Display

Display Type: LED display screen; Speaker: Multi-color light effect

Highlights

Deep bass

With powerful sound and big, pumping bass, this karaoke speaker can fill the room with beats. The built-in battery lets you rock the party outdoors for up to 12 hours play time on a single charge. You can record your performance to a USB device or SD card.

Party light effects

Get everyone up and dancing with party light effects. Colored lights on the speakers pulse in time to the music, and there are different lighting modes. However you love to party, this speaker has you covered.

Mic and guitar inputs

A mic input (6.3 mm) lets you take the party up a notch. There's also a guitar input, so you can take the lead vocals while you're shredding a solo!

Both guitar and mic have their own volume controls on the speaker, and you can add echo effects too.

All your tunes

Stream playlists via Bluetooth. Plug in other sources via audio-in, or tune in to FM radio stations. Rotary knobs on the speaker let you select the source or even fine-tune the bass and treble. Don't want to get up? There's always the remote control.

Ready for anything

The built-in carry handle and battery means you can play wherever you like. Take the beats to a friend's house. Set up on the basketball court. You can skip tracks and turn the volume up directly from the speaker.
