docking station for iPod/
iPhone

- 30-pin connector
- 20W

TCI360

Great music from your iPod/iPhone

Music from the iPod/iPhone sounds great on this Philips Docking system. Just dock your iPod/iPhone, without having to remove its case, and enjoy the delivery of the bass reflex speaker. What's more, you can charge your device while it plays

Enrich your sound experience

- Bass Reflex Speaker System delivers a powerful, deeper bass
- 20W RMS total output power

Easy to use

- Dock your iPod/iPhone, even in its case
- Auto clock synchronization with iPod/iPhone when docked
- Audio-in for easy portable music playback

PHILIPS

Highlights

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

20W RMS total output power

RMS refers to Root Mean Square which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. Essentially, amplifiers are limited by the electrical energy they can amplify and loudspeakers by the electrical energy they can convert into sound energy, without distorting the audio signal. The higher the wattage, the better the sound power emitted by the speaker.

Dock your iPod/iPhone

Smartly designed spring-loaded docking port effortlessly accommodates your iPod or iPhone, without special adaptors. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

Auto clock synchronization

When connect and dock, this docking system will automatically synchronize the clock with your iPod/iPhone within a few seconds. With this convenient feature, you do not need to set the time manually.

AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.

Specifications

iPhone compatibility

- Made for: iPhone 4S, iPhone 4, iPhone 3GS, iPhone 3G, iPhone

iPod compatibility

- Made for: iPod touch 4th generation, iPod touch 3rd generation, iPod touch 2nd generation, iPod touch 1st generation, iPod classic, iPod nano 6th generation, iPod nano 5th generation, iPod nano 4th generation, iPod nano 3rd generation, iPod nano 2nd generation, iPod nano 1st generation, iPod mini

Audio Playback

- Cradle playback mode: Charging iPhone, Charging iPod, Play and Pause

Sound

- Output power (RMS): 20W
- Sound System: Stereo
- Volume Control: rotary

Loudspeakers

- Built-in speakers: 2
- Main Speaker: Bass Reflex Speaker System

Convenience

- Clock/Version: Digital
- Display Type: LED
- Backlight color: Amber

Connectivity

- Audio in (3.5mm)

Power

- Mains power
- Power supply: 100-240V, 50/60 Hz

Dimensions

- Product dimensions (WxDxH): 216 x 112 x 102 mm
- Weight: 0.68 kg
- Packaging dimensions (WxDxH): 321 x 155 x 172 mm
- Weight incl. Packaging: 1.16 kg

Accessories

- Quick start guide
- Warranty: Warranty leaflet
