- Product dimensions (WxDxH): 11.05 x 5.3 x 8.75 cm

Highlights

Authentic vintage

This retro-style Bluetooth speaker looks like it's straight out of the 1950s. The vintage wooden cabinet. The brass-toned volume control knob and speaker grille. Details from back when jazz had the edge and rock and roll was just beginning.

10 hours of play time

The battery gives you 10 hours of play time from a full charge. Charging takes around 4 hours and is easy via the included micro USB cable. A simple press of the Bluetooth button gets this speaker ready to pair with your Bluetooth device.

Crisp sound. Punchy bass.

From classical to electronica. Just because this speaker looks jazz doesn't mean it's only good for playing jazz. Whatever you're listening to, the 1.75" full-range driver delivers crisp, clear sound. A passive radiator boosts the bass, giving you a pleasing punch on the low-end tones.

Easy listening

A play/pause button on top of the speaker easily controls your music, while volume up/down is via the retro-style knob. When the speaker is on, press the power button to switch between sources. The wireless range is 10 m: perfect for lazy afternoons in the garden or park.

All your music. Any source.

The 3.5 mm aux-in socket at the back of the speaker lets you connect to almost any external audio source. Turntable, MP3 player, CD player: as long as you have the right cable, you can play your whole library.
