sense and simplicity

Specifications

Accessories

- AC/DC Adapter: 9 Volts/400 mA DC centre positive
- Battery charger: recharging docking station

Convenience

- Battery charging indication
- Operating time: +/- 6 hours
- Automatic power off
- Base Station Features: Power LED Indicator
- Battery low indication

Power

- Power supply headphone: 3 x AAA rechargeable batteries
- Power supply transmitter: 9 Volts/400 mA DC centre positive

Sound

- Acoustic system: Closed
- Frequency response: 10–28,000 Hz

- Signal/noise ratio: +/- 80 dB
- Magnet type: Neodymium
- Speaker diameter: 40 mm

Tuner/Reception/Transmission

- Effective range: 30 m
- Automatic channel selection

Outer Carton

- Gross weight: 4.877 kg
- Outer carton (L x W x H): 39 x 24 x 35 cm
- Net weight: 2.577 kg
- Tare weight: 2.3 kg

Packaging dimensions

- Packaging dimensions (W x H x D): 22 x 31 x 12.2 cm
- Gross weight: 1.359 kg
- Net weight: 0.859 kg
- Tare weight: 0.5 kg

Highlights

40 mm speaker driver

The 40 mm speaker driver is made of a composite Mylar material for a highly sensitive yet powerful element that delivers sound without audible distortion.

Digital Wireless transmission

Digital wireless transmission not only ensures more consistent reception and better quality audio than analogue FM transmission systems, it also uses less power. And thanks to patented Philips technology, the audio remains in perfect sync with video when walking around.

Energising docking station

The docking station is the most convenient way to store your receiver when not in use. At the same time, it will recharge your receiver unit and have it ready for use at any moment.

full digital signal processing

The audio signal is digital from the transmission link right up to the headphone, ensuring top quality and excellent resistance to interference.

Easy to adjust headband

The easy to adjust mechanism provides a comfortable, close fitting acoustic seal between the ear cushion and ear, ensuring optimal performance.
