1 Using help

Philips is committed to develop products that contribute to a greener environment. To save paper and the environment, access the help on your home theater through the onscreen interface.

The onscreen help contains all the information that you need to set up your home theater.

However, if you prefer to print the user manual, download the PDF version from www.philips.com/support. Follow the instructions on the website to select your language, and then enter your model number.

Access the onscreen help by pressing **HELP** (yellow button) on your remote control.

The onscreen help has two panels.

- The left panel contains the **Contents** and **Index**. Navigate the **Contents** or **Index** to select a page.
- The right panel contains the content of each page. Select **Related topics** for additional help on the content.

Navigate the onscreen help

- ① **HELP**
Access the onscreen help.

 - Down: Scroll down or move to the next page.
 - Right: Navigate to the right panel or next index entry.
 - Left: Navigate to the left panel or previous index entry.
- ④ **↶ BACK**
Move up in the **Contents** or **Index**.
From the right panel, move to the **Contents** on the left panel.
- ⑤ **◀ / ▶ (Previous/Next)**
 - **◀**: Display the last viewed page in history.
 - **▶**: Display the next page from history.

2 Help and support

Watch video tutorials, download a software update, and find answers to many frequently answered questions (FAQs) on your product at www.philips.com.

Update your onscreen help

Philips continually tries to improve its products. To make sure that your onscreen help is up to date with the latest information, update your home theater with the latest onscreen help. Download the latest help from www.philips.com/support.

What you need

- A USB flash drive, with at least 35MB of memory. The USB flash drive must be FAT or NTFS formatted. Do not use a USB hard drive.
- A computer with Internet access.
- An archive utility that supports the ZIP file format (for example, WinZip® for Microsoft® Windows® or Stuffit® for Macintosh®).

Step 1: Check the current version of help

Check the current version of onscreen help installed in your home theater. If the version is lower than the version available at www.philips.com/support, download and install the latest onscreen help.

The last two digits indicate the version of the onscreen help installed in your home theater. For example, if the version in the home theater is 'Subsystem SW: 35-00-00-05', '05' represents the version of the onscreen help currently installed.

- 1 Press **⬆** (Home).
- 2 Select **[Setup]**, and then press **OK**.
- 3 Select **[Advanced]** > **[Version Info.]**, and then press **OK**.

Step 2: Download the latest onscreen help

- 1 Connect a USB flash drive to your computer.
- 2 In your web browser, go to www.philips.com/support.
- 3 At the Philips support website, find your product and click on **User manuals**, and then locate the **User Manual Upgrade Software**.
↳ The help update is available as a zip file.
- 4 Save the zip file in the root directory of your USB flash drive.
- 5 Use the archive utility to extract the help update file in the root directory of the USB flash drive.
↳ A file named 'HTSxxxxeDFU.zip' is extracted under the **UPG_ALL** folder of your USB flash drive, 'xxxx' being the model number of your home theater.
- 6 Disconnect the USB flash drive from your computer.

Step 3: Update onscreen help

Caution

- Before you connect the USB flash drive to your home theater, make sure that there is no disc in the disc compartment, and the disc compartment is closed.

- 1 Switch on the TV.
- 2 Connect the USB flash drive containing the downloaded file to your home theater.
- 3 Press **⬆** (Home).
- 4 Enter **338** on the remote control.
↳ Follow the instructions on the TV to confirm the update. Do not switch off the home theater or remove the USB flash drive during the update.
- 5 Disconnect the USB flash drive from the home theater.

Warning

- If power fails during the update, do not remove the USB flash drive from the home theater.
- If an error occurs during the update, retry the procedure. If the error reoccurs, contact Philips Consumer Care.

Tutorials

FAQs

If you have a problem, refer to the frequently asked questions (FAQs) for this home theater at www.philips.com/support.

If you still need help, contact Philips Consumer Care in your country.

Warning

- Do not attempt to repair your home theater yourself. This may cause severe injury, irreparable damage to your home theater, or void your warranty.

Contact Philips

If you contact Philips, you will be asked for the model and serial number of your product. The model number and serial number are on the back or bottom of your product. Note the numbers before you call Philips:

4 Important

Read and understand all instructions before you use your home theater. If damage is caused by failure to follow instructions, the warranty does not apply.

Safety

Risk of electric shock or fire!

- Never expose the product and accessories to rain or water. Never place liquid containers, such as vases, near the product. If liquids are spilt on or into the product, disconnect it from the power outlet immediately. Contact Philips Consumer Care to have the product checked before use.
- Never place the product and accessories near naked flames or other heat sources, including direct sunlight.
- Never insert objects into the ventilation slots or other openings on the product.
- Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
- Disconnect the product from the power outlet before lightning storms.
- When you disconnect the power cord, always pull the plug, never the cable.

Risk of short circuit or fire!

- Before you connect the product to the power outlet, ensure that the power voltage matches the value printed on the back or bottom of the product. Never connect the product to the power outlet if the voltage is different.

Risk of injury or damage to the home theater!

- For wall-mountable products, use only the supplied wall mount bracket. Secure the wall mount to a wall that can support the combined weight of the product and the wall mount. Koninklijke Philips Electronics N.V. bears no responsibility for improper wall mounting that results in accident, injury or damage.
- For speakers with stands, use only the supplied stands. Secure the stands to the speakers tightly. Place the assembled stands on flat, level surfaces that can support the combined weight of the speaker and stand.

- Never place the product or any objects on power cords or on other electrical equipment.
- If the product is transported in temperatures below 5°C, unpack the product and wait until its temperature matches room temperature before connecting it to the power outlet.
- Visible and invisible laser radiation when open. Avoid exposure to beam.
- Do not touch the disc optical lens inside the disc compartment.
- Parts of this product can be made of glass. Handle with care to avoid injury and damage.

Risk of overheating!

- Never install this product in a confined space. Always leave a space of at least four inches around the product for ventilation. Ensure curtains or other objects never cover the ventilation slots on the product.

Risk of contamination!

- Do not mix batteries (old and new or carbon and alkaline, etc.).
- Remove batteries if they are exhausted or if the remote control is not to be used for a long time.
- Batteries contain chemical substances, they should be disposed of properly.

Risk of swallowing batteries!

- The product/remote control may contain a coin type battery, which can be swallowed. Keep the battery out of reach of children at all times!

Care for your product

- Do not insert any objects other than discs into the disc compartment.
- Do not insert warped or cracked discs into the disc compartment.
- Remove discs from the disc compartment if you are not using the product for an extended period of time.
- Use only microfiber cloth to clean the product.

Care of the environment

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means that the product is covered by the European Directive 2002/96/EC. Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste.

Correct disposal of your old product helps to prevent potential negative consequences for the environment and human health.

Your product contains batteries covered by the European Directive 2006/66/EC, which cannot be disposed with normal household waste.

Please inform yourself about the local rules on separate collection of batteries because correct disposal helps to prevent negative consequences for the environmental and human health.

3D health warning

If you or your family has a history of epilepsy or photosensitive seizures, consult a medical professional before exposing yourself to flashing light sources, rapid image sequences or 3D viewing.

To avoid discomfort such as dizziness, headache or disorientation, we recommend not watching 3D for extended periods of time. If you experience any discomfort, stop watching 3D and do not immediately engage in any potentially hazardous activity (for example driving a car) until your symptoms have disappeared. If symptoms persist, do not resume watching 3D without consulting a medical professional first. Parents should monitor their children during 3D viewing and ensure they do not experience any discomfort as mentioned above. Watching 3D is not recommended for children under six years of age as their visual system is not fully developed yet.

6 Connect your home theater

theater

This section helps you connect your home theater to a TV and other devices.

For information about the basic connections of your home theater and accessories, see the quick start guide. For a comprehensive interactive guide, see www.connectivityguide.philips.com.

Note

- For identification and supply ratings, refer to the type plate at the back or bottom of the product.
- Before you make or change any connections, make sure that all devices are disconnected from the power outlet.

Speakers

Position, connect, and set up your speakers for best surround sound.

Position

Speaker position plays a critical role in setting up a surround sound effect.

For best results, place your speakers and the subwoofer as shown below.

Note

- Surround sound depends on factors such as room shape and size, type of wall and ceiling, windows and reflective surfaces, and speaker acoustics. Experiment with the speaker positions to find the optimum setting for you.

Follow these general guidelines, and then set up your speakers.

- 1 Seating position:**
This is the center of your listening area.
- 2 FRONT CENTER (front center) speaker:**
Place the center speaker directly in front of the seating position, either above or below your TV. Make sure that it is close to your ear height when you are seated.
- 3 FRONT LEFT (front left) and FRONT RIGHT (front right) speakers:**
Place the left and right speakers in the front, and equidistant from the center speaker in an arc, so that all the three speakers are at same distance from your seating position. For best effect, point the speakers towards the seating position and place the speakers close to the ear level (when seated).
- 4 REAR LEFT (rear left) and REAR RIGHT (rear right) speakers:**
Place the rear surround speakers to the left and right side of your seating position, either in line with it or slightly behind it. For best effect, point the speakers towards the seating position and place the speakers just above the ear level (when seated).
- 5 SUBWOOFER (subwoofer):**
Place the subwoofer at least one meter to the left or right of the TV. Leave about ten centimeter clearance from the wall.

Connect

Connect your speakers and the subwoofer to your home theater as described in the quick start guide.

Setup

Set up your speakers through the speaker setup menu.

- 1 Connect your speakers and subwoofer as described in the Quick start guide.
- 2 Press **Home** on your home theater remote control, and select **[Setup] > [Audio] > [Speaker Setup]**.
- 3 Enter the distance for each speaker, and then listen to the test tones and change the volume. Experiment a little with the speaker positions to find the ideal setting.

Wireless rear speakers

Convert the rear speakers of your home theater into wireless speakers by using a wireless module.

- The wireless transmitter connects to the **Wireless Rear Audio** connector on your home theater.
- The wireless receiver connects to the rear surround speakers and the power supply.

For more information, refer to the user manual of your wireless module.

Wireless module - RWSS5510

Purchase the wireless module RWSS5510 (sold separately) from a Philips authorized dealer.

Connect to TV

Connect your home theater to a TV to watch videos. You can listen to audio from TV programs through your home theater speakers. Use the best quality connection available on your home theater and TV.

Option 1: Connect to TV through HDMI (ARC)

Best quality video

Your home theater supports HDMI version 1.4 - Audio Return Channel (ARC). If your TV is HDMI ARC compliant, connect your home theater to the TV through the HDMI ARC connection for easy and quick setup.

With HDMI ARC, you do not need an additional audio cable to play the audio from TV through your home theater.

- 1 Using a High Speed HDMI cable, connect the **HDMI OUT (ARC)** connector on your home theater to the **HDMI ARC** connector on the TV.

The **HDMI ARC** connector on the TV might be labeled **HDMI IN** or **HDMI**. For details on TV connectors, see the TV user manual.

- 2 On your TV, turn on HDMI-CEC. For details, see the TV user manual.

↳ When you play a disc on your home theater, the video is automatically displayed on TV and the audio is automatically played on the home theater.

- 3 If audio from the TV does not play automatically on your home theater, set up the audio manually (see 'Set up audio for connected devices' on page 18).

Option 2: Connect to TV through HDMI

Best quality video

If your TV is not HDMI ARC compliant, connect your home theater to the TV through a standard HDMI connection.

With a standard HDMI connection, you need an additional audio cable to play the audio from the TV through your home theater (see 'Connect audio from TV and other devices' on page 17).

- 1 Using a High Speed HDMI cable, connect the **HDMI OUT (ARC)** connector on your home theater to the **HDMI** connector on the TV.

The HDMI connector on the TV might be labeled **HDMI IN**.

- 2 On your TV, turn on HDMI-CEC. For details, see the TV user manual.
↳ When you play a disc on your home theater, the video is automatically displayed on TV and the audio is automatically played on the home theater.

- 3 To play audio from TV programs through your home theater, connect an additional audio cable (see 'Connect audio from TV and other devices' on page 17).

- 4 If audio from the TV does not play automatically on your home theater, set up the audio manually (see 'Set up audio for connected devices' on page 18).

Note

- If your TV has a DVI connector, you can use an HDMI/DVI adapter to connect to TV.

Option 3: Connect to the TV through composite video

Basic quality video

If your TV does not have HDMI connectors, connect your home theater to the TV through a composite connection. A composite connection does not support high-definition video.

With a composite connection, you need an additional audio cable to play the audio from the TV through your home theater (see 'Connect audio from TV and other devices' on page 17).

- 1 Using a composite video cable, connect the **VIDEO** connector on your home theater to the composite video connector on the TV. The composite video connector might be labeled **AV IN**, **VIDEO IN**, **COMPOSITE**, or **BASEBAND**.

- 2 On your TV, switch to the correct video input.
- 3 To play audio from TV programs through your home theater, connect an additional audio cable (see 'Connect audio from TV and other devices' on page 17).

On your home theater, press **SOURCE** repeatedly to select the correct audio input.

Connect audio from TV and other devices

Play audio from TV or other devices through your home theater.

Use the best quality connection available on your TV, home theater, and other devices.

Note

- The audio connections in this user manual are only recommendations. You can use other connections too.
- When your home theater and TV are connected through **HDMI ARC**, an audio connection is not required.

Option 1: Connect audio through a digital optical cable

Best quality audio

Using an optical cable, connect the **OPTICAL** connector on your home theater to the **OPTICAL OUT** connector on the TV or other device.

The digital optical connector might be labeled **SPDIF**, **SPDIF OUT**, or **OPTICAL**.

Option 2: Connect audio through a digital coaxial cable

Good quality audio

Using a coaxial cable, connect the **COAXIAL** connector on your home theater to the **COAXIAL/DIGITAL OUT** connector on the TV or other device.

The digital coaxial connector might be labeled **DIGITAL AUDIO OUT**.

Option 3: Connect audio through analog audio cables

Basic quality audio

Using an analog cable, connect the **AUX** connectors on your home theater to the **AUDIO OUT** connectors on the TV or other device.

Set up audio for connected devices

When you connect a device to your home theater, check the audio settings.

- 1 On your TV and other devices, turn on HDMI-CEC. For details, see the user manual of the TV and the other device.
- 2 Select 'Amplifier' from the TV speakers menu. For details, see the TV user manual.
- 3 On your home theater, turn on System Audio Control, and then map the audio of the connected device to the correct connectors on your home theater (see 'Play audio from home theater' on page 35).

If the connected device is not HDMI-CEC compliant, press **SOURCE** repeatedly on your home theater to select the correct audio input.

Computers and the Internet

Connect your home theater to your computer network and the internet, and enjoy:

- **Multimedia content streamed from your computer:** Play music, photo, and video from a computer or other media server on your network (see 'Browse PC through DLNA' on page 30).
- **Online TV:** Browse Online TV services to access online information, games, news, music, and other services (see 'Browse Online TV' on page 32).
- **Software update:** Update the home theater software through the network (see 'Update software through the Internet' on page 39).

! Caution

- Before you try to connect the home theater to a computer network, familiarize yourself with the network router, media server software and networking principles. If necessary, read documentation that accompanies the network components. Philips is not responsible for lost, damaged, or corrupt data.

Wired connection

Connect your home theater to your router through a network cable.

What you need

- A network router (with DHCP enabled).
- A network cable (RJ45 straight cable).
- A computer with media server software installed (see 'Browse PC through DLNA' on page 30).
- For Online TV and software updates, make sure that the network router has access to the Internet, and is not restricted by firewalls or other security systems.

Set up the wired network

Connect your home theater to your router as shown below, and then switch on the devices.

- 1 Connect the home theater to a network router through a wired connection (see 'Wired connection' on page 18).
- 2 Turn on your TV, and switch to the correct source for the home theater.
- 3 Press **⬆** (Home).
- 4 Select **[Setup]**, and then press **OK**.
- 5 Select **[Network] > [Network Installation] > [Wired (Ethernet)]**, and then press **OK**.
- 6 Follow the instructions on the TV to complete the setup.
 - ↳ The home theater connects to the internet. If connection fails, select **[Retry]**, and then press **OK**.
- 7 Select **[Finish]**, and then press **OK** to exit.

Check wired network settings

- 1 Press **⬆** (Home).
- 2 Select **[Setup]**, and then press **OK**.
- 3 Select **[Network] > [View Network Settings]**, and then press **OK**.
 - ↳ The current network settings are displayed.

Wireless connection

Connect your home theater to your router through a wireless connection.

What you need

- A network router (with DHCP enabled).
- A Wi-Fi dongle (Model: Philips WUB1110).
- A computer with media server software installed (see 'Set up media server software' on page 30).
- For Online TV and software update, make sure that the network router has access to the Internet and is not restricted by firewalls or other security systems.

Set up the wireless network

Connect your home theater to your router as shown below, and then switch on the devices.

- 1 Connect the home theater to a network router through a wireless connection (see 'Wireless connection' on page 19).
- 2 Turn on your TV, and switch to the correct source for the home theater.
- 3 Press **⬆** (Home).
- 4 Select **[Setup]**, and then press **OK**.
- 5 Select **[Network] > [Network Installation] > [Wireless (Wi-Fi)]**, and then press **OK**.
- 6 Follow the instructions on the TV to complete the setup.
 - ↳ The home theater connects to the internet. If connection fails, select **[Retry]**, and then press **OK**.
- 7 Select **[Finish]**, and then press **OK** to exit.

Check wireless network settings

- 1 Press **⬆** (Home).
- 2 Select **[Setup]**, and then press **OK**.
- 3 Select **[Network] > [View Wireless Settings]**, and then press **OK**.
↳ The current Wi-Fi settings are displayed.

Name your home theater

To easily identify your home theater on a network, name your home theater.

- 1 Turn on your TV, and switch to the correct source for the home theater.
- 2 Press **⬆** (Home).
- 3 Select **[Setup]**, and then press **OK**.
- 4 Select **[Network] > [Name your Product:]**, and then press **OK**.
- 5 Press the **Alphanumeric buttons** to enter the name.

Rent online video

Not available in China

Rent videos from online stores, through your home theater. You can watch them right away or later.

Many online video stores offer a huge choice of video, with different rental prices, periods, and conditions. For some stores, you must create an account before you can rent.

What you need

- A high-speed internet connection to the home theater.
- An HDMI connection between your home theater and TV.
- An SD memory card of type SDHC Class 6, with at least 8 GB of memory.

Format an SD card

Before you download any online video or BD-Live content, your SD card must be in the SD card slot of your home theater, and formatted.

- 1 Switch your TV to the correct HDMI source for your home theater.
- 2 Insert the SD memory card into the **SD CARD** slot on your home theater.

- 3 Follow the onscreen instructions to format the card.
 - ↳ Any content on the card is erased during formatting.
- 4 After formatting, leave the card in the **SD CARD** slot.

Rent and play online video

- 1 Connect your home theater to the home network and internet (see 'Computers and the Internet' on page 18).
- 2 Press **⬆** (**Home**).
- 3 Select **[browse Online TV]** and press **OK**.
 - ↳ The online services available in your country are displayed.
- 4 Press the **Navigation buttons** to go to a video store, and then press **OK**.
- 5 If prompted, follow the video store instructions to register or log in to an account.
 - ↳ You see an option to rent videos.
 - ↳ If you have rented videos and are still within the rental period, you also see an option to watch the videos.
- 6 Follow the video store instructions to rent or watch a video.
 - The video is downloaded to your SD memory card. You can watch it now or at any time within the rental period.
 - When you have downloaded a video to your card, you can watch it only on your home theater. You can't move the card and watch it on another device.
 - If you move the card and format it in another device, your downloaded video is erased. Download your video again before you watch.
- 7 Press the play buttons on your remote control to play, pause, search, or stop the video.

EasyLink

The home theater supports Philips EasyLink, which uses the HDMI-CEC (Consumer Electronics Control) protocol. EasyLink-compliant devices that are connected through HDMI can be controlled by a single remote control.

Philips does not guarantee 100% interoperability with all HDMI-CEC devices.

What you need

- HDMI-CEC compliant devices.
- An HDMI connection between the connected devices.

Switch on

- 1 On the TV and other connected devices, turn on the HDMI-CEC operations. For details, see the manual of the TV or other devices.
- 2 Press **⬆** (**Home**).
- 3 Select **[Setup]**, and then press **OK**.
- 4 Select **[EasyLink] > [EasyLink]**, and then press **OK**.
- 5 Select **[On]**, and then press **OK**.

Control devices

Control the home theater and the other connected HDMI-CEC compliant devices with a single remote control.

One-touch play

If you enable One-touch play, the TV automatically switches to the correct channel when you play a disc in your home theater.

One-touch standby

When you press and hold **⏻** (**Standby**) on the remote control, the home theater and all the connected HDMI-CEC devices (that support one-touch standby) switch to the standby mode.

If one-touch standby is enabled on your home theater, you can switch to standby with the remote control of the TV or other HDMI-CEC devices.

System Audio Control

When you play a device that has its audio output routed to the home theater, the home theater switches to the corresponding audio source automatically.

To use one-touch audio, turn on System Audio Control and follow the instructions on the TV to map connected devices to the audio input connectors of the home theater.

Audio Input Mapping

When you connect a new device to your home theater, map the device to the audio input connector (see 'Play audio from home theater' on page 35).

Play audio from home theater

Play the audio from a connected device through your home theater.

- 1 Press **⬆** (Home).
- 2 Select **[Setup]**, and then press **OK**.
- 3 Select **[EasyLink]** > **[System Audio Control]** > **[On]**, and then press **OK**.
 - To play the audio from the TV speakers, select **[Off]**, and skip the following steps.
- 4 Select **[EasyLink]** > **[Audio Input Mapping]**, and then press **OK**.
- 5 Follow the instructions on the TV to map the audio of the connected device to the audio inputs on your home theater.

Note

- If you connect your home theater to the TV through an HDMI ARC connection, make sure that the TV audio is mapped to the ARC input on your home theater.

8 Change settings

9 Update software

To continue to get the best features and support for your home theater, update the software regularly. Compare the version of your current software with the latest version on www.philips.com/support.

Check software version

- 1 Press **▲** (Home).
- 2 Select **[Setup]**, and then press **OK**.
- 3 Select **[Advanced]** > **[Version Info.]**, and then press **OK**.
 - ↳ The software version is displayed.

Update software through the Internet

- 1 Connect your home theater to the network. Use a
 - wired network connection (see 'Set up the wired network' on page 19), or
 - a wireless network connection (see 'Set up the wireless network' on page 19).
- 2 Press **▲** (Home).
- 3 Select **[Setup]**, and then press **OK**.
- 4 Select **[Advanced]** > **[Software Update]** > **[Network]**.
 - ↳ If an upgrade media is detected, you are prompted to start or cancel the update.
- 5 Follow the instruction on the TV to confirm the update.
 - ↳ When the software update is complete, the home theater automatically switches off and restarts. If it does not, disconnect the power cord for a few seconds and then reconnect it.

Note

- If the home theater cannot connect to the Philips server, press **▲** (Home), and then select **[Setup]** > **[Network]** > **[Network Installation]** to set up the network.

Update software through USB

What you need

- A USB flash drive, with at least 75MB of memory. The USB flash drive must be FAT or NTFS formatted. Do not use a USB hard drive.
- A computer with Internet access.
- An archive utility that supports the ZIP file format (for example, WinZip® for Microsoft® Windows® or StuffIt® for Macintosh®).

Step 1: Download the latest software

- 1 Connect a USB flash drive to your computer.
- 2 In your web browser, go to www.philips.com/support.
- 3 At the Philips Support website, find your product and locate the **Software and drivers**.
 - ↳ The software update is available as a zip file.
- 4 Save the zip file in the root directory of your USB flash drive.
- 5 Use the archive utility to extract the software update file in the root directory of the USB flash drive.
 - ↳ The files are extracted under the **UPG_**
ALL folder of your USB flash drive.
- 6 Disconnect the USB flash drive from your computer.

Step 2: Update the software

Caution

- Before you connect the USB flash drive to your home theater, make sure that there is no disc in the disc compartment, and the disc compartment is closed.

- 1 Connect the USB flash drive to your home theater.
- 2 Switch your TV to the correct source for your home theater.
- 3 Press **▲** (Home), and then select **[Setup]**.
- 4 Select **[Advanced]** > **[Software Update]** > **[USB]**.
- 5 Follow the instructions on the TV to confirm the update.
 - ↳ When the software update is complete, the home theater automatically switches off and restarts. If it does not, disconnect the power cord for a few seconds, and then reconnect it.

Note

- When the software update is in progress, do not turn off the power or remove the USB flash drive.

Warning

- Risk of electric shock. Never remove the casing of the product.

To keep the warranty valid, never try to repair the product yourself.

If you have problems using this product, check the following points before you request service. If you still have a problem, register your product and get support at www.philips.com/welcome.

Main unit

The buttons on the home theater do not work.

- Disconnect the home theater from the power supply for a few minutes, then reconnect.

Picture

No picture.

- Make sure that the TV is switched to the correct source for the home theater.

No picture on a TV connected through HDMI.

- Make sure that you use a High Speed HDMI cable to connect the home theater and TV. Some Standard HDMI cables do not display properly for some images, 3D video, or Deep Color.
- Make sure that the HDMI cable is not faulty. If it is faulty, replace it with a new cable.
- Press **Home** and then **731** on the remote control to restore the default picture resolution.
- Change the HDMI video setting, or wait for 10 seconds for auto recovery (see 'Picture resolution' on page 36).

Disc does not play high-definition video.

- Make sure that the disc contains high-definition video.
- Make sure that the TV supports high-definition video.
- Use an HDMI cable to connect to the TV.

Sound

No sound from home theater speakers.

- Connect the audio cable from your home theater to your TV or other devices. You do not need a separate audio connection when:
 - the home theater and TV are connected through an **HDMI ARC** connection, or
 - a device is connected to the **HDMI IN** connector on your home theater.
- Set up the audio for the connected device (see 'Set up audio for connected devices' on page 18).
- Reset your home theater to its factory settings (see 'Apply factory settings' on page 38), and then switch it off and switch on again.
- On your home theater, press **SOURCE** repeatedly to select the correct audio input.

Distorted sound or echo.

- If you play audio from the TV through the home theater, make sure that the TV is muted.

Audio and video are not synchronized.

- 1) Press **SOUND SETTINGS**. 2) Press the **Navigation buttons** (left/right) to select **AUD SYNC**, and then press **OK**. 3) Press the **Navigation buttons** (up/down) to synchronize the audio with the video.

Play

Cannot play a disc.

- Clean the disc.
- Make sure that the home theater supports the type of disc (see 'Media formats' on page 40).
- Make sure that the home theater supports the region code of the disc (see 'Region codes' on page 40).
- If the disc is a DVD±RW or DVD±R disc, make sure that it is finalized.

Cannot play a DivX file.

- Make sure that the DivX file is encoded according to the 'Home Theater Profile' with the DivX encoder.
- Make sure that the DivX file is complete.

DivX or RMVB/RM subtitles do not display correctly.

- Make sure that the subtitle file name is the same as the movie file name (see 'Subtitles' on page 25).
- Select the correct character set: 1) Press **OPTIONS**. 2) Select **[Character Set]**. 3) Select the supported character set. 4) Press **OK**.

Cannot read the contents of a USB storage device.

- Make sure that the format of the USB storage device is compatible with the home theater.
- Make sure that the file system on the USB storage device is supported by the home theater.

'No entry' or 'x' sign appears on the TV.

- The operation is not possible.

EasyLink does not work.

- Make sure that the home theater is connected to a Philips brand EasyLink TV, and the EasyLink option is on (see 'EasyLink' on page 34).

When you switch on the TV, the home theater automatically switches on.

- This behavior is normal when you are using Philips EasyLink (HDMI-CEC). To make the home theater work independently, switch off EasyLink.

Cannot access BD-Live features.

- Make sure that the home theater is connected to the network. Use a wired network connection (see 'Wired connection' on page 18) or wireless network connection (see 'Wireless connection' on page 19).
- Make sure that the network is set up. Use a wired network installation (see 'Set up the wired network' on page 19) or wireless network installation (see 'Set up the wireless network' on page 19).
- Make sure that the Blu-ray disc supports BD-Live features.
- Clear memory storage (see 'Clear memory' on page 23).

Cannot play video or photos from an iPod or iPhone on the TV.

- Browse and select videos and photos from the iPod or iPhone screen, and play them on your TV.
- Make sure that the iPod or iPhone software has not been tampered with or illegally modified.

Cannot view pictures from an iPod or iPhone on the TV.

- Connect a yellow composite cable to the iPod dock and the TV.
- Switch the TV to the **AV/VIDEO** source (corresponding to the yellow composite cable).
- Press the play button on the iPod or iPhone to start a slideshow.
- Make sure that the iPod or iPhone software has not been tampered with or illegally modified.

Play 3D video in 2D mode.

- Make sure that your home theater is connected to a 3D TV through an HDMI cable.
- Make sure that the disc is a Blu-ray 3D disc, and the Blu-ray 3D video option is on (see 'Blu-ray 3D video' on page 36).

TV screen is black when you play a Blu-ray 3D video or a DivX copy protected video.

- Make sure that the home theater is connected to the TV through an HDMI cable.
- Switch to the correct HDMI source on the TV.

Cannot download video from an online video store.

- Make sure that your home theater is connected to the TV through an HDMI cable.
- Make sure that the SD card is formatted, has enough memory to download the video, and is of type SDHC Class 6.
- Make sure that you have paid for the video, and it is within the rental period.
- Make sure that the network connection is good. Use a wired network connection (see 'Wired connection' on page 18) or a wireless network connection (see 'Wireless connection' on page 19).
- Visit the video store website for more information.

Network

Wireless network distorted or not found.

- Make sure that the wireless network is not disturbed by microwave ovens, DECT phones, or other neighboring Wi-Fi devices.
- If the wireless network does not work properly, try a wired network installation (see 'Set up the wired network' on page 19).

Validez de la garantía

Todos los productos de la línea de audio y video Philips, se registrarán por un año de garantía internacional (365 días), salvo para Chile donde los productos de las líneas CD Portable y RCR CD, los cuales se rigen por 6 meses de garantía (182 días)

Condiciones de la garantía

Esta garantía perderá su validez si:

- El defecto es causado por uso incorrecto o en desacuerdo con el manual de instrucciones
- El aparato sea modificado, violado por una persona no autorizada por Philips
- El producto esté funcionando con un suministro de energía (red eléctrica, batería, etc.) de características diferentes a las recomendadas en el manual de instrucciones
- El número de serie que identifica el producto se encuentre de forma adulterada.

Están excluidos de garantía,

- Los defectos que se generen debido al incumplimiento del manual de instrucciones del producto
- Los casos fortuitos o de la fuerza mayor, como aquellos causados por agentes de la naturaleza y accidentes, descargas eléctricas, señales de transmisión débiles.
- Los defectos que se generen debido al uso de los productos en servicios no doméstico/residencial regulares o en desacuerdo con el uso recomendado
- Daños ocasionados por fluctuaciones de voltajes, voltaje fuera de norma o por causas fuera de Philips, como cortocircuitos en los bafles o parlantes.
- En las ciudades en donde no existe el taller autorizado del servicio de Philips, los costos del transporte del aparato y/o el técnico autorizado, corren por cuenta del cliente.
- La garantía no será válida si el producto necesita modificaciones o adaptaciones para que funcione en otro país que no es aquél para el cual fue mercadeado.

El único documento válido para hacer efectiva la garantía de los productos, es la Factura o Boleta de compra del consumidor final.

Aquellos productos que hayan sido adquiridos en otros países y que no estén en el rango normal del país donde se efectuará la reparación, dicha prestación de servicio tomará mas tiempo de lo normal ya que es necesario pedir las partes/piezas al centro de producción correspondiente.

CERTIFICADO DE GARANTIA NO BRASIL

Este aparelho é garantido pela Philips do Brasil Ltda., por um período superior ao estabelecido por lei. Porém, para que a garantia tenha validade, é imprescindível que, além deste certificado, seja apresentada a nota fiscal de compra do produto.

A Philips do Brasil Ltda. assegura ao proprietário consumidor deste aparelho as seguintes garantias, a partir da data de entrega do produto, conforme expresso na nota fiscal de compra, que passa a fazer parte deste certificado:

Garantia para rádios e reprodutores de CD portáteis (sem caixa acústica destacável): 180 dias

Garantia para os demais produtos da marca Philips: 365 dias.

Esta garantia perderá sua validade se:

- O defeito apresentado for ocasionado pelo uso indevido ou em desacordo com o seu manual de instruções.
- O produto for alterado, violado ou consertado por pessoa não autorizada pela Philips.
- O produto for ligado a fonte de energia (rede elétrica, pilhas, bateria, etc.) de características diferentes das recomendadas no manual de instruções e/ou no produto.
- O número de série que identifica o produto estiver de alguma forma adulterado ou rasurado.

Estão excluídos desta garantia defeitos decorrentes do descumprimento do manual de instruções do produto, de casos fortuitos ou de força maior, bem como aqueles causados por agentes da natureza e acidentes. Excluem-se igualmente desta garantia defeitos decorrentes do uso dos produtos em serviços não doméstico/residencial regular ou em desacordo com o uso recomendado.

ESTÃO EXCLUÍDAS DA GARANTIA ADICIONAL AS PILHAS OU BATERIAS FORNECIDAS JUNTO COM O CONTROLE REMOTO.

Nos municípios onde não exista assistência técnica autorizada Philips, as despesas de transporte do aparelho e/ou técnico autorizado correm por conta do consumidor requerente do serviço.

A garantia não será válida se o produto necessitar de modificações ou adaptações para habilitá-lo a operar em qualquer outro país que não aquele para o qual foi designado, fabricado, aprovado e/ou autorizado, ou ter sofrido qualquer dano decorrente deste tipo de modificação.

Philips do Brasil Ltda.

No Brasil, para informações adicionais sobre o produto, entre em contato com o CIC - Centro de Informações ao Consumidor através dos telefones (11) 2121-0203 (Grande São Paulo) e 0800-701-0203 (demais regiões e estados).

PHILIPS ARGENTINA S.A. en adelante denominada “la empresa”, garantiza al comprador de este artefacto por el término de (1) año a partir de la fecha de adquisición, el normal funcionamiento contra cualquier defecto de fabricación y/o vicio de material, y se compromete a reparar el mismo —sin cargo alguno para el adquirente— cuando el mismo fallare en situaciones normales de uso y bajo las condiciones que a continuación se detallan:

1. Este certificado de garantía es válido únicamente en la Republica Argentina. El certificado debe ser completado por la casa vendedora y ser presentado por el usuario conjuntamente con la factura original de compra.
2. Serán causas de anulación de esta garantía en los casos que corresponda:
 - 2.1. Uso impropio o distinto del uso doméstico.
 - 2.2. Exceso o caídas de tensión eléctrica que impliquen uso en condiciones anormales.
 - 2.3. Instalación y/o uso en condiciones distintas a las marcadas en el “Manual de instalación y uso” que se adjunta a esta garantía.
 - 2.4. Cualquier intervención al artefacto por terceros no autorizados por la empresa.
3. La garantía carecerá de validez si se observare lo siguiente:
 - 3.1. Enmiendas o raspaduras en los datos del certificado de garantía o factura.
 - 3.2. Falta de factura original de compra que detalle tipo de artefacto, modelo, número de serie y fecha que coincida con los del encabezamiento del presente certificado.
4. No están cubiertos por esta garantía los siguientes casos:
 - 4.1. Los daños ocasionados al exterior del gabinete.
 - 4.2. Las roturas, golpes, caídas o rayaduras causadas por traslados.
 - 4.3. Los daños o fallas ocasionados por deficiencias, sobretensiones, descargas o interrupciones del circuito de alimentación eléctrica o rayos, deficiencias en la instalación eléctrica del domicilio del usuario o conexión del artefacto a redes que no sean las especificadas en el Manual de Uso del mismo.
 - 4.4. Las fallas, daños, roturas o desgastes producidos por el maltrato o uso indebido del artefacto y/o causadas por inundaciones, incendios, terremotos, tormentas eléctricas, golpes o accidentes de cualquier naturaleza.
 - 4.5. Las fallas o daños ocasionados en desperfectos en la línea telefónica.
 - 4.6. Las fallas producidas por una mala recepción ocasionada en el uso de una antena deficiente o en señales de transmisión débiles.
5. Las condiciones de instalación y uso del artefacto se encuentran detalladas en el Manual de Uso del mismo.
6. La empresa no asume responsabilidad alguna por los daños personales o a la propiedad al usuario o a terceros que pudieran causar la mala instalación o uso indebido del artefacto, incluyendo en este último caso a la falta de mantenimiento.
7. En caso de falla, el usuario deberá requerir la reparación a la empresa a través del Service Oficial y/o Talleres Autorizados más próximos a su domicilio y cuyo listado se acompaña al presente. La empresa a segura al usuario la reparación y/o reposición de piezas para su correcto funcionamiento en un plazo no mayor a 30 días contados a partir de la fecha de solicitud de reparación, salvo caso fortuito o fuerza mayor.

8. Toda intervención del servicio técnico realizada a pedido del usuario dentro del plazo de garantía, que no fuera originada por falla o defecto alguno cubierto por este certificado, deberá ser abonado por el interesado de acuerdo a la tarifa vigente.
9. El presente certificado anula cualquier otra garantía implícita o explícita, por la cual y expresamente no autorizamos a ninguna otra persona, sociedad o asociación a asumir por nuestra cuenta ninguna responsabilidad con respecto a nuestros productos.
10. En caso de que durante el período de vigencia de esta garantía el artefacto deba ser trasladado a las Delegaciones Oficiales y/o Talleres Autorizados de Service para su reparación, el transporte será realizado por la empresa y serán a su cargo los gastos de flete y seguros y cualquier otro que deba realizarse para su ejecución.
