- Packaging dimensions (WxDxH): 420 x 442 x 1150 mm
- Product weight: 19 kg

Highlights

Powerful sound. Extra bass

With powerful sound and big, pumping bass, this karaoke speaker can fill the room with beats. Want to lay down some tracks to play to your friends? You can record your performance to a USB device or SD card.

Party light effects

Get everyone up and dancing with party light effects. Coloured lights on the speakers pulse in time to the music and there are different lighting modes. However you love to party, this speaker has you covered.

Mic and guitar inputs

A mic input (6.3 mm) lets you take the party up a notch. There's also a guitar input, so you can take the lead vocals while you're shredding a solo! Both the guitar and mic have their own volume controls on the speaker and you can add echo effects too.

All your tunes

Stream playlists via Bluetooth. Plug in other sources via audio-in or tune in to FM radio stations. Rotary knobs on the speaker let you select the source or even fine-tune the bass and treble. Don't want to get up? There's always the remote control.

Ready for anything

The speaker's built-in handle and wheels mean you can play wherever you can find an AC socket. Roll up to a friend's house. Set it up on a patio with an outdoor power outlet. You can skip tracks and turn the volume up directly from the speaker.
