- Product dimensions (WxDxH): 6.1 x 6.1 x 7.6 cm
- Product weight: 0.135 kg
- Weight incl. Packaging: 0.18 kg

BT51B/00

Highlights

Tiny speaker. Crisp sound.

Weighing just 90 g, you'll barely notice you're carrying this tiny speaker. The 1.5" full-range driver delivers crisp, clear sound even when you turn the volume up.

5 hrs of play time. USB charging.

The battery gives you 5 hours of play time from a full charge. Charging takes less than 3 hours and is easy via the included micro USB cable.

Bluetooth connectivity

Pairing with your Bluetooth device is simple. Just power on the speaker and it's ready to pair. The wireless range is 10 m.

Anti-clipping function

Anti-Clipping lets you play music louder and keeps its high quality, even when the battery is low. It accepts a range of input signals, from 300 mV to 1000 mV and keeps your speakers safe from damage by distortion. This built-in function monitors the musical signal as it goes through the amplifier and keeps peaks within the amplifier's range, preventing the audio distortion caused by clipping without affecting loudness. A portable speaker's ability to reproduce musical peaks decreases along with battery power, yet anti-clipping reduces peaks caused by low battery, keeping music distortion-free.
