#### Play it loud

- 40W RMS maximum output power
- MAX Sound for instant power boost
- Coaxial speakers deliver natural and crystal-clear sound
- Digital Sound Control for optimized music style settings

# PHILIPS

# Highlights

## Stream music via Bluetooth™

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video wirelessly on this speaker easily.

## NFC technology

Pair Bluetooth devices easily with one-touch NFC (Near Field Communications) technology. Just tap the NFC enabled smartphone or tablet on the NFC area of a speaker to turn the speaker on, start Bluetooth pairing, and begin streaming music.

## Mic and guitar input

Transform your Philips set into an entertainment system for special occasions or for spontaneous fun. A built-in microphone and a guitar port allow you to showcase talent, provide entertainment, or make speeches and announcements. Music from various sources can continue to play even when you use the microphone and plug in a musical instrument. Now you can Karaoke anytime you want, or

connect your guitar for electrifying jamming sessions. With Philips, the fun never ends.

## Carrying strap & robust design

Just attach the carrying strap, sling it over your shoulder and go. AZ1 is also the perfect airline carryon size so you can bring your skills abroad. Its robust design is tough enough to handle life in one party after another, inside or out, and its controls can be flipped over so they stay protected when you're out and about.

## Play & charge iPod/iPhone/iPad

This speaker comes with a USB port, allowing you to conveniently charge your iPod, iPhone, iPad. Simply connect your Apple device with its USB cable to the back of the speaker. You can

play any music from your Apple device whilst it is charging.

## MAX Sound

MAX Sound technology produces an instant boost in bass, maximizing volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting bass and volume to maximum levels without distortion. The end result is a noticeable amplifying of both sound spectrum and volume and a potent audio boost that will add mileage to any music.

## 40W RMS maximum output power
