

Philips
Micro music system

Bluetooth®
CD, USB, FM
70W max

BTM2180

Rich and powerful sound

Obsessed with sound

Listen to all your digital music from your Smartphone via Bluetooth. This Philips Micro system also plays MP3-CD and CD-R/RW, and features Bass Reflex speakers for powerful and dramatic bass.

Enjoy your music from multiple sources

- Wireless music streaming via Bluetooth
- USB Direct for easy MP3 music playback
- Play MP3-CD, CD and CD-R/RW
- Audio-in for portable music playback

Enrich your sound experience

- 70W RMS maximum output power
- Dome tweeter for detailed and natural sound
- Digital Sound Control
- Bass Reflex Speaker System delivers a powerful, deeper bass

Easy to use

- Motorized CD loader for convenience access
- Digital tuning with preset stations for extra convenience

PHILIPS

Highlights

Wireless music streaming

Bluetooth is a short range wireless communication technology that is both robust and energy-efficient. The technology allows easy wireless connection to iPod/iPhone/iPad or other Bluetooth devices, such as smartphones, tablets or even laptops. So you can enjoy your favorite music, sound from video or game wireless on this speaker easily.

USB Direct for easy MP3 music

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct.

Dome tweeter

Dome tweeters reproduce clear high and mid-range frequencies that enhance the overall sound clarity coming from the speakers. Delivering a harmonious blend of undistorted and uncolored wide-ranging sound, they offer detailed vocal clarity and instruments tone purity, thereby balancing the overall sound when paired with a combination of woofers.

Audio-in

The Audio in connectivity allows direct playback of Audio in content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the Audio in is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimize the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by resonating the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a whole new dimension of deep bass.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set balanced, clear, powerful, warm and bright controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Specifications

Sound

- Sound enhancement: digital sound control
- Maximum output power (RMS): 70W

Loudspeakers

- Loudspeaker types: Dome tweeter
- Main Speaker: 2 way, 4" woofer, Bass Reflex Speaker System

Audio playback
