Highlights

Easy to read display

This fantastic freestanding phone is built for comfort and ease of use. The wide, easy to read display is backlit in white making it easy for you to see the name and number of whoever is calling!

Caller ID*

Sometimes you want to know who's calling before you pick up the phone. Caller ID allows you to see the name and number of the person calling so you can decide before you answer.

Speaker for hands-free calls

The phone's hands-free mode uses a loudspeaker to allow you to hear and speak without holding the handset. This is perfect for family calls with lots of people or even if you're multitasking and busy with something else.

Programmable hot keys

Calling friends, family or colleagues has never been simpler. You can program two keys with two of your contacts for instant calling so all you have to do is touch one button and you're connected!

Hassle-free charging

For reliability and convenience the handset can be charged in both directions of the docking station.

14 hours talk time

This phone will give you a full 14 hours of speaking time on a single charge. Whether you're busy doing things around the house or the handset is left off the cradle, you can rest assured the phone will work when it's needed!

25 minutes of message time

Make sure you don't miss out on any messages. The phone allows callers to record up to 25 minutes of messages so you'll always know who has called.

Block unwanted callers

This phone features privacy settings so you can block unwanted calls. If you don't want to hear from certain numbers you can add them to your black list and your phone won't even ring. You can add up to four numbers to your list.

Set your polyphonic ringtone

This phone features a number of pre-installed polyphonic ringtones. Select your favorite to hear when calls come in. You can also set the phone's alarm to remind you of upcoming events and appointments.
