Highlights

Color screen
The color screen adds more fun and excitement by enriching messages and other features. The large color display can show up to 6 lines of text with a 4k pixel resolution. Color also makes your phone easier to use: menus and sub-menus are easily read and icons are easily identified, allowing any desired applications and functions to be located and selected quickly and easily.

White backlight
Backlighting is a feature that illuminates the LCD screen or keypad for use in the dark.

Flashing Message Indicator

Downloadable outgoing messages
This function gives the user the possibility to download specific outgoing messages for their answering machine. Simply call the dedicated service provider and select your favourite outgoing message. This message will be recorded on the answering machine by the service provider (country and network dependent).

Easy answer phone control
Easy answer phone control with 7 direct access keys

Specific Outgoing Messages
When you're away or do not wish to be disturbed you can record a different message for each VIP groups. Like this, your friends are not treated the same way than your professional calls.

Ringtone download
This function offers the possibility to personalize your phone by downloading ringtones. Simply call the dedicated service provider and select your favourite song. An SMS is sent to you, together with the attached melody. You can select this melody as any other ringtones (country and network dependent).

Eatoni text editor
Eatoni's LetterWise is an easy-to-use text-entry solution requiring just 1.16 taps per correct letter. It makes typing on phone keypads as comfortable, fast, and accurate as using a typewriter keyboard. It is unique among predictive text entry solutions in its ability to easily handle the entry of abbreviations, names, addresses, and URLs.

Personal mail boxes
Children at a certain age need some privacy at home when sending SMS to their friends. But paying for several mobile phones quickly gets very expensive. DECT phones provide up to 9 personal SMS mail boxes which can be protected by a PIN code - SMS can stay private despite collective phone usage. The user must tell his correspondents his mail box number so that they can send short messages directly to this personal mail box. Sending a SMS from a personal mailbox makes it easy for the addressee to reply directly to this mailbox without having to remember the mailbox number.
