General Information

Safety Instructions

Please read carefully the Safety Mark on the Back side

This mark is intended to alert the users from the non isolated dangerous voltage within the product that may be of sufficient magnitude to constitute a risk of electric shock to persons

This mark is intended to alert the user for important operating and servicing instruction

Warnings

- * Avoid sustained periods on high-volume use, and do not turn the volume to maximum level while using high output signal, such as Mobile Phone or DVD, etc., as this will cause distortion and may damage the loudspeaker cones.
- * Please switch off the system from the wall socket, when not in use.
- * Please unplug the system from the AC outlet when unused for a long time
- * Do not open the cover or back panel to avoid electronic shock or any other accidents. No user-serviceable parts are inside.
- * Only for indoor use.
- * Plug the system to the AC outlet with the right voltage marked on the back panel of the Sound Bar.

Care and safety information

Avoid high temperatures, moisture, water and dust

- Apparatus should not be exposed to dripping or splashing of liquid.
- Do not place any sources of danger on the Bar (e.g. liquid filled objects, lighted candles).
- Do not install near heat sources.

Do not block any ventilation openings

- Place the apparatus in a location with adequate ventilation to prevent internal heat build up. Allow at least 100cm (4 inches) of free space all around the apparatus for adequate ventilation.
- At high volume the back cover of Bar becomes hot. Do not touch it.

Care of the cabinet

- Use a soft cloth slightly moistened to clean the cabinet. Do not use a solution containing alcohol, spirits, ammonia or abrasives.

Speaker Placement & Connections

(A) Placement

- Place Speaker Bar on top of a table or mount it on the wall.
- Place it at a height that is closest to the listening ear-level.
- Position Speaker Bar so that it is directly parallel to the listening area.
- Place the subwoofer at the corner of the room or at least one meter away from the TV.

(B) Wall Mounting

Get ready with wall mounting arrangement using provided accessories.

(C) Connections

- Note
- * Placement of subwoofer is very important for low frequency response.
 - * Do not keep any object below subwoofer.

Input Connections

Ⓐ Connect audio from TV

Note :
Do not attach soundbar with Earphone / Headphone jack of LED TV.
It may effect the sound and reliability of Soundbar

Side Panel

No.	Key	Short Press	Long Press
1.		Mode	Standby
2.		Play/Pause	Scan (Radio Mode)
3.		Next	+ Volume
4.		Previous	- Volume

Troubleshooting

WARNING

Under no circumstances should you try to repair the system yourself, as this will invalidate the warranty. Do not open the system as there is a risk of electric shock. If a fault occurs, first check the points listed below before taking the system for repair.

If you are unable to remedy the problem by following these hints, consult your dealer or PHILIPS for help.

Problem	Solution
No power.	— Check if the AC power cord is properly inserted into the AC mains socket.
No sound or distorted sound.	— Adjust the volume. — Select the correct source to choose the equipment that you want to hear through the System.
The remote control does not function Properly.	— Reduce the distance between the remote control and the system. — Replace the batteries with new ones. — Point the remote control directly toward the IR sensor (located on front panel of the Soundbar). — Check that the batteries are loaded correctly. — Switch off system for 30 seconds and then restart
Low hum or buzz sound.	— Place the product as far away as possible from electrical devices that may be causing interference. — Check power supply voltage and consult electrician
The content of the USB flash drive cannot be read	— The USB flash drive format is not compatible with the system. Drive is formatted with a different file system which is not supported by this unit (e.g. NTFS)
Slow operation of the USB Flash drive	— Large file size of high memory USB flash drive takes longer time to read and play.
Cannot detect USB flash drive	— Take out USB drive insert it again properly.
FM not properly tuned	— Match with local frequency
FM reception not good	— While listening radio turn off TV/DVD or other radiation source. — Extend antenna wire
