Quick Start Guide

*The black line cord is a 4-pin telephone line cord, and the gray line cord is a 2-pin telephone line cord. Use these as explained in I Connect.

In multihandset packs, you will find one or more additional handsets, battery doors, chargers with power supply units and additional rechargeable batteries.

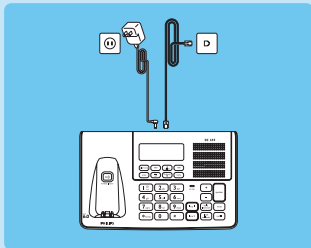

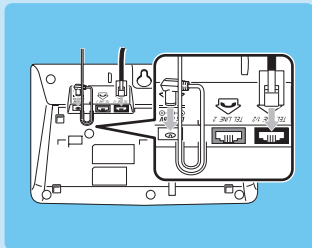

WARNING: Always use the line cord, power supply and batteries that came with your phone.

Connect

Connect the base station

1. Place the base station in a central location near the telephone line socket and electricity socket.

2. Connect the line cord(s) and the power cable to their corresponding connectors at the back of the base station.

Note

For 2 line subscriptions, connect the 4-pin telephone line cord (with black cord) to the black TEL LINE 1/2 phone jack and to the telephone wall jack for line 1. Connect the second telephone line cord (with gray cord) to the gray TEL LINE 2 phone jack and to the telephone wall jack for line 2.

If the two phone lines are on one modular wall jack, connect only the 4-pin telephone line cord (with black cord) to the black TEL LINE 1/2 phone jack and to the telephone wall jack. (Do not connect anything to the gray TEL LINE 2 phone jack.)

3. Connect the other end of the line cord(s) and power cable to their respective sockets.

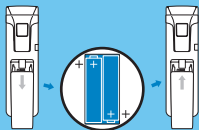

Install

Insert rechargeable batteries and charge

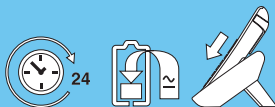

A

Insert batteries

B

Charge handset for 24 hours

Make a call

Enter the number (maximum 24 digits) and then press . The default line is highlighted. If you want to switch to the other line, scroll . Press  or  **Select** to call on the highlighted line.

Refer to your SE659 User Manual for details about the answering machine functions.

Troubleshooting

For more information, please refer to the User Manual that came with your phone.

Problem

- There's no dialling tone!
- Caller does not hear me clearly!
- **Searching...** is displayed on handset and  icon is blinking!
- Caller number is not displayed!

Solution

- No power: Check the connections.
- Batteries are empty: Charge the batteries.
- Move closer to the base station.
- Wrong line cord used: Use the line cord provided.
- Move closer to the base station.
- Move the base station at least one metre (yard) away from any electronic appliances.
- Move closer to the base station.
- Make sure that your base station is on.
- Reset your unit and restart handset registration.
- Service is not activated: Check your subscription with your network operator.
