30 min answering machine

1.8" display/white backlight

Handset speakerphone

M6651WB

A new beginning

Iconic in every way, the Philips Luceo cordless phone conveys sensual lines in a modern design that seamlessly melds with its integrated secondary base display. Precision styling and functions make Luceo a welcome masterpiece in any home.

Eco-conscious product

- Zero power emission when ECO+ mode is activated

Ultimate calling experience

- Handset speakerphone allows you to talk hands-free
- HQ-Sound: high quality acoustic engineering for superb sound
- Privacy settings: call block, silence mode, call barring
- Three-field entries for assigning 3 numbers to one contact
- Up to 30 minutes of messages on your answering machine
- High-contrast 4.6 cm (1.8") white-on-black graphical display

Exquisite design with high quality execution

- Calibrated keys for precise dialling
- Charge handset either way around
- Secondary display on the base shows caller ID and clock
- Guiding side walls on the base ensure secure docking
- Smart cable management maintains visual appeal from all angles

Highlights

4.6 cm (1.8") graphical display

A high-contrast white-on-black reverse LCD display ensures easy reading and also melds perfectly with the Philips Luceo's overall sleek design language.

Calibrated keypad

The calibrated and carefully designed keypad ensures precise dialling where you clearly feel every keystroke, whether you are dialling a number or entering a phonebook contact. Materials and key structures have undergone extensive user tests to find a perfect balance between pressing force and key response.

ECO+ mode

Philips phones are energy efficient and designed to be respectful to the environment. When ECO mode is activated the emitted radiation is reduced by up to 60%, and up to 95% when the phone is charging. With ECO+ mode activation the radiation drops to zero.

Handset speakerphone

Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or simply multitask.

Hassle-free charging

For reliability and convenience the handset can be charged in both directions of the docking station.

HQ-Sound

HQ-Sound: high quality acoustic engineering for superb sound reproduction. We build upon decades of experience and breakthrough innovations in developing Hi-Fi audio products and high-end headphones to deliver excellent voice clarity on our DECT phones. When it comes to improving sound quality, our acoustics engineers and architects have thought of everything — high quality components, digital

signal processing, precise acoustic design, advanced testing and fine-tuning. The result is sound that is crisp, clear and authentic. Sound so good and natural, it is almost like being there in person.

Multiple privacy settings

Blacklist restricts calls from specific numbers or numbers starting with certain digits, keeping unwanted calls away. You can block 4 sets of numbers. Each set of numbers can consist of 1 to 24 digits. When there is an incoming call from a number starting with one of these numbers or from one of 4 exact Caller numbers, the phone will not ring. With silence mode you can disable the ringtones at specific times to enjoy peace and silence. Thanks to Call barring, you can avoid expensive phone bill surprises by blocking calls to specific numbers starting with certain digits.

Secondary display on the base

The Philips Luceo's high-contrast white-on-black display seamlessly and stylishly integrates with its base. The display shows the caller ID when there is an incoming call and the time when in idle mode. You can choose to turn off the base display – so as not to be disturbed by any light – at any time.

Highlights

Side walls for secure docking

The base of the Philips Luceo boasts cleverly designed side walls, which not only serve as an attractive design highlight but also helpfully guide the handset securely into place for docking and charging.

Smart cable management

Smart cable management maintains visual appeal from all angles

Three-field phonebook entries

These days most people have multiple contact numbers. Our contact list makes it easier for you to manage your phone contacts. Simply save

three phone numbers for up to 100 contacts with a choice of three different field names for home, work and mobile.

Up to 30 min. recording

With up to 30 minutes' recording time on your answering machine, you'll never miss an important message.
