- Height: 248 mm

Product highlights

Add top-quality video

The webcam has been designed to add video to your internet calls so you can see as well as hear your friends and family online. It works easily and instantly and is entirely future-proof!

Rotating lens

Rotating lens for perfect aiming and natural images. You can get the right camera angle quickly and easily without having to put things underneath it to change the tilt.

Built-in digital microphone

The built-in digital microphone allows you to talk naturally and freely or to add sound to a video clip recording.

30 frames per second video

With a 30 frames per second refresh rate you will enjoy natural-looking and full motion video calls without jumpy images some webcams produce.

Super VGA resolution

The webcam captures Video Graphics Array (VGA) quality (640x480) snapshots and flicker-free video clips for video mails. With VGA resolution, your webcam becomes a professional level camera. Add high quality photos to documents, webpages and e-mails in an instant, or print out photo-quality images.

Precision glass optics

Sharp, crisp and clear. Precision glass optics guarantee you high image quality for all applications - from snapshot to video messaging. The finished lenses are coated with a special film to extend their working life and protect them from wear and tear and dust accumulation.

Compatible with MSN and Skype

The webcam and its software have been designed with all messaging systems in mind. Add video to Skype, MSN Messenger, Yahoo!, AOL Messenger and other free messaging services. It also works with Windows Messenger and NetMeeting for multi-person video-conferencing and is designed to be future-proof.

VLounge QuickLaunch button

To start up VLounge simply press the QuickLaunch button

VLounge software basic

Software for capturing, managing and archiving snapshots and video clips in a very convenient way. With just a couple of mouse clicks you will able to create and send Video mails. This software package gives you all you need to take full advantage of your Philips webcam.

Docking station

The docking station provides convenient, tailor-made storage for your receiver when not in use and on some models, it even takes care of battery charging.

Versatile desktop stand

The versatile desktop stand is the best way to mount your webcam away from your screen. It gives the camera extra height and provides a sturdy base that won't fall over.
