- Power supply: 50/60 Hz, 110-240V
- Power consumption: 10 W
- Standby power consumption: < 0.8 W

Accessories

- Batteries: 2 x AA
- Cables: 1 x AV Cables
- Remote control: 3141 017 90221
- User Manual: English, Spanish, B-Portuguese
- Warranty Card

Dimensions

- Set dimensions (W x H x D): 360 x 37 x 265 mm
- Set weight: 1.98 kg
- Packaging dimensions (W x H x D): 415 x 82 x 352 mm
- Weight incl. Packaging: 2.98 kg

Highlights

Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first, followed by the field with the even lines, both fields are written at one time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.

12-bit/108MHz video processing

12-bit Video DAC is a superior Digital-to-Analogue-Converter that preserves every detail of the authentic picture quality. It shows subtle shades and smoother graduation of colors, resulting in a more vibrant and natural picture. The limitation of the usual 10bit DAC become in particular apparent while using large screens and projectors.

Multi-format Movies

Multi-format playability allows you to play most disc formats for maximum disc compatibility and viewing pleasure.

Multi-format Music

Multi-format playability allows you to play most disc formats for maximum disc compatibility and listening pleasure.

Picture CD (JPEG)

Multi-format playability allows you to view images in the comfort of your living room and play most disc formats for maximum disc compatibility and viewing pleasure.

Ultra-slim design

The attractive enclosure has a very low profile.

12-bit
Video DAC
