Mic and guitar inputs

A mic input (6.3 mm) lets you take the party up a notch. There's also a guitar input, so you can take the lead vocals while you're shredding a solo! Both guitar and mic have their own volume controls on the speaker. You can change your voice, fade vocals, and add echo effects too.

Stream playlists via Bluetooth. Plug in other sources via audio-in or USB—or plug the speaker into another speaker or amp using the line-out socket.
