# Highlights

## High Pixel Density Display

The very best high density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colors as high quality prints.

## Rich, vibrant colors

Full color display brings out the best in your photos with vibrant, real life colors by displaying the same full range of colors found in professionally printed photos.

## Quality design and materials

High quality design and exquisite materials include a solid stylish stand, designer frame and detailed finishing that convey an impression of value and refined taste, adding luster to the photos displayed on PhotoFrame.

## Auto orientation

Automatic landscape/portrait recognition employs a sensor that recognizes PhotoFrame orientation and displays each photo in its proper mode.

## Multiple viewing modes

Flexible display modes give you the freedom to display your photos one image at a time, in thumbnail mode for quick, easy searches, or to create a slideshow of your most treasured photos.

## Memory-Card Manager

Memory-Card Manager is a set of two built-in memory card readers and featured software for displaying, editing, storing and organizing your memory card photos directly in one, hassle-free step - all without a PC.

## Smart Album

Smart Album allows you to create and manage albums, as well as to set up and adjust transition effects to your photo slideshows.

## PhotoEffect Wizard

The PhotoEffect Wizard is an easy-to-use feature that allows you to rotate, zoom in, crop and even adjust photo color tones to black & white or sepia right within PhotoFrame.

## Easy USB connectivity

A USB connector is built into the device for easy and quick downloading photos from a PC.

## Run on built-in battery or AC

AC or onboard battery power give you the choices of operating your PhotoFrame on standard AC power or cordlessly with the onboard rechargeable battery.

## Auto on/off display

A timer turns PhotoFrame on and off at the hours you select, reducing energy consumption for the sake of our environment saving up to one third of your PhotoFrame energy costs.

\* Battery operating time depends on temperature, brightness level and operation type.
