Guarantee

The line adaptor may not be attached to the line cord. You may find the line adaptor in the box. In this case, you have to connect the line adaptor to the line cord first before plugging the line cord to the line socket.

In multihandset packs, you will find one or more additional handsets, chargers with power supply units and additional rechargeable batteries.

⚠ **WARNING** Always use the cables and batteries that are supplied with your phone.

1 Connect
Connect the base station

1. Insert the plug of the power cord into the socket under the base station
2. Insert the plug of the line cord into the socket under the base station
3. Connect the other end of the line cord together with the line adaptor if necessary, to the telephone line socket and the other end of the power cable to the electricity socket

Connect the power supply ❶

Connect the line cord to the line socket ❷
