Dimensions

- Product dimensions (W x H x D): 40 mm x 82 mm x 88 mm
- Product weight (g): 110

Packaging Data

- 12NC: 8670 000 38468
- EAN/UPC/GTIN: 6 09585 15256 4
- Gross weight: 0.49 kg
- Tare weight: 0.38 kg
- Quantity: 1
- Height: 186 mm
- Length: 230 mm
- Width: 92 mm

Outer Carton

- EAN/UPC/GTIN: 2 06 09585 15256 8
- Gross weight: 3.9 kg
- Tare weight: 3.9 kg
- Quantity: 6
- Length: 410 mm
- Width: 313 mm
- Height: 254 mm

Highlights

Stable mount

The multifunctional stand makes it easy for you to mount the webcam on any monitor, laptop, notebook or flat surface.

Automatic face tracking

The state-of-the-art camera software automatically detects your face and moves the lens to follow you as you move. You stay in the center of the image even if you move during a video conference. It gives you the freedom to express yourself and converse naturally.

Precision glass lens

Sharp, crisp and clear. Precision glass lens guarantees you high image quality for all applications - from snapshot to video messaging. The finished lenses are coated with a special film to extend their working life and protect them from wear and tear and dust accumulation.

Compatible with all services

The webcam and its software have been designed with all instant messaging services in mind. Add video to Skype, Windows Live Messenger, Yahoo! Messenger, AOL Instant Messenger and other services.

Built-in digital microphone

The built-in digital microphone allows you to talk naturally and freely or to add sound to a video clip recording.

Add fun logo to your webcast

Personalize your webcast or blogs by adding your own fun logo. This special software enables you to insert a small image in any corner of the streaming video, the same way that TV channel logos appear on your television.

Change Your Background

Replace your real-life background and fool your friends into thinking you're somewhere else! You can move around and chat as normal, while the software automatically fills in the background behind you. There are 15 great backgrounds to choose from, or you can upload and project your own favorite backdrop.

3x digital zoom

Zoom in and out to get the perfect framing for any image. You control the zoom entirely via the onscreen interface while you're looking at the image so you can adjust it perfectly.

Exciting fun frames/effects

Keep chatting fun by adding the unexpected. Surprise your friends with one of ten themed fun frames around your face to match your chat. Or entertain them with special fun effects that will make you look like negative, embossed or even distorted.

1.3 Mega pixels

With 1.3 Mega pixels you can use your webcam as a camera for taking high-quality photographs that are even good enough for printing larger sized high quality images.
