- Number of brands in database: Over 300
- Carrier frequency range: 28 - 70kHz
- Transmission angle: 90 degree
- Learning IR codes
- Learning frequency range: 30 kHz - 60 kHz

Accessories

- Battery: Yes, CR2032 Coin cell Battery 3V Lithium

Outer Carton

- Length: 306 mm
- Width: 70 mm
- Height: 160 mm
- EAN/UPC/GTIN: 87 10895 93579 1
- Quantity: 3

Packaging Data

- 12NC: 908210006464
- EAN/UPC/GTIN: 87 10895 93578 4
- Height: 26 mm
- Length: 302 mm
- Width: 155 mm

Highlights

4in1 home entertainment remote

Replace a table full of remote controls with one unit that'll operate your TV, satellite receiver (or cable STB set-top box) DVD player/recorder and receiver (AMP), regardless of the brand or model.

Learning functionality

Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

Ultra flat

A remote with ultraflat design is slimmer that a standard remote. This is made possible by replacing the standard batteries by coin cell batteries (the size of a coin) that take less space.

Dedicated menu keys

Dedicated keys to move easily around your equipment's menus mean simple one finger operation without having to press shift or function shift keys

Device mode indicator

Small lights keep you informed about which device mode is currently active.

Battery-low indication

To know in time when the batteries need to be recharged or replaced.

Auto brand search

Getting your new remote control working is simply a case of having your remote automatically search for the most suitable code for your equipment.
