

Philips  
Component Hi-Fi system

Dock for iPod/iPhone/iPad

DCM7005

# Enjoy high fidelity music

## Obsessed with sound

Enjoy audio that is natural and detailed, thanks to Hi-Fi dome tweeters. Built with aluminium for a sturdy, stylish finish, this set plays and charges your iPod/iPhone/iPad. Listen to MP3s, radio and other devices via MP3 Link and USB Direct.

### Enrich your sound experience

- Hi-Fi dome tweeter for detailed and natural sound
- Class 'D' digital amplifier for quality sound performance
- Treble and Bass Control for easy high and low tone settings
- Gold-plated speaker connector for finest signal transmission
- 100 W RMS total output power

### Enjoy your music from multiple sources

- Play and charge your iPod/iPhone/iPad via USB socket
- Play MP3/WMA-CD, CD and CD-RW
- USB Direct for MP3/WMA music playback
- MP3 Link for portable music playback

### Premium finishing with noble materials

- Aluminium cabinet for quality look and feel

**PHILIPS**  
sense and simplicity

# Highlights

## Treble and Bass Control

Treble and bass are equalizer features that control the high and low frequency sound levels of your audio respectively. Treble specifically regulates the amplification of the high tones in the music, while bass controls the amplification level of the low tones. Using the up and down keys, the listener can conveniently place more or less emphasis on the low and high tones, or leave treble and bass flat to play back music according to its original recorded setting. Treble and Bass Control lets you listen to your music the way you like it.

## MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

## USB Direct

With the USB Direct mode, you can simply select the music on a USB device and play back all your content. All you have to do is plug in your USB device to play back music or export content from the device.

## Class 'D' Amplifier

The Class 'D' Digital Amplifier takes an analogue signal, converts it into a digital signal and then amplifies the signal digitally. The signal then enters a demodulation filter to give the final output. The amplified digital output delivers all the advantages of digital audio, including improved sound quality. In addition, the Class 'D' Digital Amplifier has over 90% efficiency compared to traditional AB amplifiers. This high efficiency translates into a powerful amplifier with a small footprint.

## Play and charge iPod/iPhone/iPad

Enjoy your favourite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favourite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

## Gold-plated speaker connector

The gold-plated speaker connector ensures better audio signal transmission compared to traditional click-fit connections. It also minimises the electrical signal loss from the amplifier to the speaker box, resulting in sound reproduction that's as close to reality as possible.

# Specifications

## Sound

- Output power (RMS): 2 x 50 W
- Sound Enhancement: Treble and Bass Control, Class "D" Digital Amplifier, Loudness

## Loudspeakers

- Loudspeaker types: Dome tweeter
