- Packaging dimensions (W x H x D): 24 x 15.5 x 12 cm
- Gross weight: 0.34 kg
- Tare weight: 0.3 kg
- Nett weight: 0.04 kg
- EAN: 87 12581 43226 3
- Number of products included: 1
- Packaging type: Blister

Outer Carton

- Outer carton (L x W x H): 26.5 x 25.5 x 19.5 cm
- Gross weight: 3.2 kg
- Tare weight: 3.12 kg
- Nett weight: 0.08 kg
- GTIN: 2 87 12581 43226 7
- Number of consumer packagings: 2

Highlights

High-definition iPod dock

The iPod dock features high-definition menus and HDMI connectivity so you can easily connect your iPod to your HDTV. This allows you to navigate and view your iPod music and videos in unbelievable quality.

Intuitive user interface

The user interface graphically represents the categories of content on your docked iPod so you can intuitively navigate your iPod music, videos and more on your TV screen. For the most complete iPod experience on TV, the interface includes existing iPod Album Art.

Multiple connection options

Whether you have a high-definition TV and home stereo system, or a standard TV, there are plenty of connection options available to enjoy your docked iPod. Featuring HDMI, S-Video, Composite Video, Digital Audio and RCA Audio for multiple connectivity configurations.

Upscales video via HDMI

HDMI is a direct digital connection that carries digital high definition resolution video as well as digital audio. The connection allows for transmission from a source device to a TV without the loss of image quality. With video upscaling, the resolution of standard definition video signals can be increased to resolutions up to 1080i. This results in a sharper, more true-to-life picture.
