Introduction

Philips digital PhotoFrame can be placed either vertically or horizontally to fit the photos on display. You can place it somewhere in a room for a continuous display by connecting it to the mains power supply.

1. Important

1.1 Safety precautions and maintenance

Read and follow these instructions when connecting and using your PhotoFrame:

- To protect your display from possible damage, do not put excessive pressure on the LCD panel. When moving your PhotoFrame, grasp the frame to lift; do not lift the it by placing your hand or fingers on the LCD panel.
- Unplug the PhotoFrame if you are not going to use it for an extensive period of time.
- Unplug the PhotoFrame if you need to clean it with a slightly damp cloth. The screen may be wiped with a dry cloth when the power is off. However, never use alcohol, solvents or ammonia-based liquids.
- Consult a service technician if the PhotoFrame does not operate normally when you have followed the instructions in this manual.
- The casing cover should be opened only by qualified service personnel.
- Keep the PhotoFrame out of direct sunlight and away from stoves or any other heat source.
- Keep the PhotoFrame dry. To avoid electric shock, do not expose it to rain or excessive moisture.
- When positioning the PhotoFrame, make sure the power plug and outlet are easily accessible.
- To avoid the risk of shock or permanent damage to the set, do not expose the PhotoFrame to rain or excessive moisture.

1.2 Care of the PhotoFrame

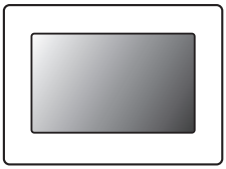
1. **Do not drop**
   PhotoFrame is a complicated electronic device and cannot withstand shock from being dropped.
2. **Do not expose to moisture**
   PhotoFrame is neither moisture proof nor moisture resistant. Exposing it to moisture or liquid of any kind will very likely damage your PhotoFrame.
3. **Do not hit or scratch**
   The LCD panel of PhotoFrame is made of glass and is therefore sensitive to abnormal force and sharp edges.
4. **Screen cleaning**
   Use only a dry soft cloth to clean your screen.
5. **Keep the stand clear from cables**
   Make sure the stand of your PhotoFrame is clear from cables as cables could pull the stand out of PhotoFrame to the floor.
6. **Temperature and humidity limitations**
   Operating temperature:
   0° ~ 40° (Celsius) / 32° ~ 113° (Fahrenheit)
   Humidity: 20% ~ 80%

1.3 Recycling

- The PhotoFrame uses materials that can be recycled. To minimize the amount of waste in the environment, check your area for companies that will recover used televisions for dismantling and collection of reusable materials, or contact your dealer for recycling
- Please dispose of the carton and packing material through the proper waste disposal management in your area.

2. Your PhotoFrame

2.1 What's in the box



Digital PhotoFrame

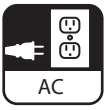
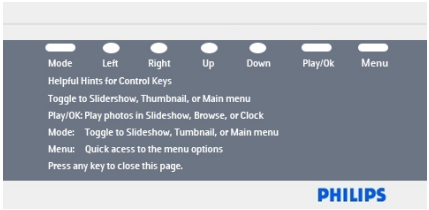
What else you'll need



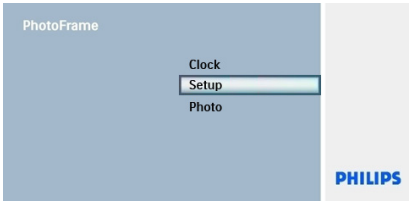
Power outlet

Digital Photos on memory card

2.2 Control Buttons and Menu



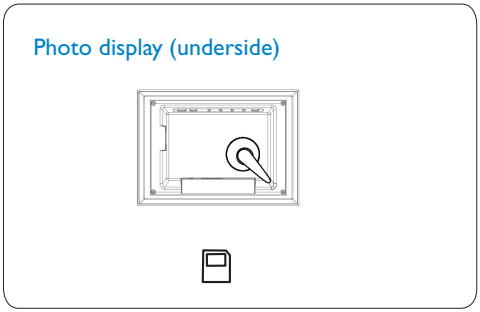
- Use your PhotoFrame by pressing the control buttons in the back.
- The control buttons and instructions are shown at the bottom of the menu screen.



Use the **Up / Down keys** to move between the menus. Move it **left** and **right** to cycle through the menu tree.

2.3 Connections

2.3.1 Memory Card



SD/ MMC /MS / xD Card

Inserting a memory card:

- Insert the memory card into the slot in the frame.
- For xD, SD, SDHC, MMC, MMC+, or Memory Stick cards slide the card until it locks in place.
- Push the USB drive in the slot.
- After a few seconds, photos on the memory card will display and a slideshow will start.

DO NOT remove the memory card immediately after inserting it in to the PhotoFrame or when PhotoFrame is counting the Photos. Wait until the screen is stable

Removing a memory card:

- To remove the xD, SD, SDHC, MMC, or Memory Stick card, push the card again to unlock and then pull out the card.

Note

For able to delete photo from the memory device, it must NOT be locked. To unlock the devices please follow the manufacturer's instruction.

2.4 Product highlights

The PhotoFrame is designed to be flexible and convenient to use and it provides the following features:

- High pixel density for sharp and crisp photo display.
- View photos directly from memory cards
- Rotating stand for best possible way of viewing photos.
- Clock

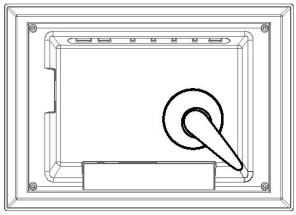
3. Getting started

3.1 Placing the Product

The PhotoFrame should be placed on a flat surface and close to a power socket. Keep it away from high temperatures and high levels of moisture

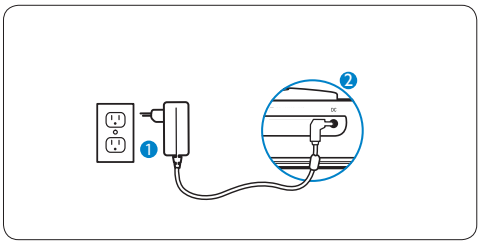
Install the stand

Place the head of the stand in the socket.
Rotate counterclockwise until the stand clicks into place.



3.2 Connecting to the mains

Connect the supplied power cable from PhotoFrame to a power outlet.



Note:
For safety reasons and best stability Philips recommend to install the stand well properly. Using other positions may cause the PhotoFrame to fall and it is the responsibility of the user.

3.3 Initial Setup

3.3.1 Setting the Language

Press the **Mode** button to toggle to the **Main Menu**, select the **Setup** and **Up / Down** to Language.

8. Frequently asked questions

Is the LCD screen touch-enabled?
The LCD screen is not touch-enabled. Use the buttons on the back to control Digital PhotoFrame.

Can I switch between different slideshows photos by using different memory cards?
Yes. When a memory card is connected to the Digital PhotoFrame, it'll slideshow photos stored on that specific card.

Can I use Digital PhotoFrame to delete photos on memory card?
Yes, it supports operations to delete photos on external devices such as a memory cards.

Can I print photos from Digital PhotoFrame?
No, it does not support direct photo printing.

How does the Digital PhotoFrame show high-resolution 4:3 digital photos on its 16:9 screen?
To ensure high picture integrity, Digital PhotoFrame shrinks the photos at original aspect ratio and trims excessive portions before displaying these photos.

Can I use Digital PhotoFrame during its Auto-off periods?
Yes. Press any control button to bring the system back to ON status.

Why doesn't my Digital PhotoFrame show some of my photos?
Digital cameras take photos and store them in JPEG, GIF, TIFF and BITMAP format according to camera industry standards. Digital PhotoFrame is designed to show photos following the same industry standards. Some images, such as web images, scanned images, or photos in RAW format from professional cameras, are not stored according to camera industry standards and therefore cannot be correctly displayed on Digital PhotoFrame. Use PC applications to convert such images into standard JPEG format for Digital PhotoFrame.

Why doesn't my Digital PhotoFrame go into Auto-off status after I set it?
First, make sure you set Current Time, Auto-off at, and Auto-on at correctly. Digital PhotoFrame will automatically turn off its display exactly at the Auto-off time. If the time has already passed for the day, it will start entering Auto-off status at the specified time from the next day.

Do Philips PhotoFrame support progressive JPEG?
PhotoFrame is supports progressive JPEG formatted picture, maximum size 800x600.

9. Service and Warranty

Recycling Information for Customers

Philips establishes technically and economically viable objectives to optimize the environmental performance of the organization's product, service and activities.

From the planning, design and production stages, Philips emphasizes the important of making products that can easily be recycled. At Philips, end-of-life management primarily entails participation in national take-back initiatives and recycling programs whenever possible, preferably in cooperation with competitors.

There is currently a system of recycling up and running in the European countries, such as The Netherlands, Belgium, Norway, Sweden and Denmark.

Banned Substance Declaration

This product comply with RoHs and Philips BSD (AR17-G04-5010-010) requirements

CE Declaration of Conformity

Philips Consumer Lifestyle declare under our responsibility that the product is in conformity with the following standards

- EN60950:2000 (Safety requirement of Information Technology Equipment)
- EN55022:1998 (Radio Disturbance requirement of Information Technology Equipment)
- EN55024:1998 (Immunity requirement of Information Technology Equipment)
- EN61000-3-2:2000 (Limits for Harmonic Current Emission)
- EN61000-3-3:1995 (Limitation of Voltage Fluctuation and Flicker)

following provisions of directives applicable

- 73/23/EEC (Low Voltage Directive)
- 89/336/EEC (EMC Directive)
- 93/68/EEC (Amendment of EMC and Low Voltage Directive)

and is produced by a manufacturing organization on ISO9000 level.

Caro Consumatore,
Grazie per aver scelto Philips. Lei ha acquistato uno dei migliori prodotti attualmente disponibili sul mercato. Nell'eventualità il suo prodotto non funzionasse correttamente o nel caso lei necessiti di alcuni chiarimenti sul funzionamento, la invitiamo a non recarsi presso la stazione di servizio ESSO ma a contattare il nostro Servizio Consumatori al numero:
840 320 086 (costo della chiamata da telefono fisso 0,08 centesimi di euro al minuto)
dove il nostro personale specializzato potra' darle tutto il supporto necessario.
E' anche possibile rivolgersi direttamente presso uno dei nostri Centri di Assistenza Autorizzati, i cui indirizzi sono presenti sul nostro sito internet all'indirizzo: www.philips.it (sezione contatti e assistenza).

Sehr geehrter Philips-Kunde,

Vielen Dank für das Vertrauen in unsere Produkte.
Sie haben mit Ihrer Wahl eines der besten Produkte in dieser Range erworben.
Sollte das Gerät wider erwarten einen Fehler aufweisen, oder haben Sie generell Fragen zum Produkt, kontaktieren Sie bitte unsere Kundenhotline:

In Deutschland 01803 386 852 (€0.09/min)

Bitte wenden Sie sich in diesen Fällen nicht an die Esso-Station bei der Sie das Gerät erworben haben.

Cher Client,

Nous vous remercions pour votre confiance en Philips.
Vous avez choisi pour un des meilleurs produits dans sa catégorie.
Si malheureusement vous devriez rencontrer un problème, ou si vous souhaitez un renseignement concernant cet appareil, nous vous prions de ne pas vous adresser à la station ESSO.
Vous pouvez, dans ce cas, vous adresser à notre ligne d'Assistance Téléphonique.
En Belgique : 078 250 145

Geachte consument,

Hartelijk dank voor uw vertrouwen in Philips.
U bent in het bezit gekomen van een van de beste producten die nu in deze categorie verkrijgbaar zijn.
Mocht zich desondanks een defect voordoen, of heeft u vragen over het apparaat, dan kunt u zich wenden tot onzeConsumentenlijn:
In Belgie : 078 250 145
In Nederland: 0900 – 8407 (10 ct/min)
Wij verzoeken u vriendelijk om in deze gevallen niet terug te gaan naar het Esso-station waar u het apparaat heeft aangeschaft.
