How to get music files

recommended for MP3 music files.

can organize them in folders ("albums").

How to organize music files

For example:

003-DEEP.MP3

will be played.

001-EWORLD.MP3

002-FIRESTARTER.MP3

The music compression technology MP3 (MPEG Audio Layer 3) reduces the

digital data of an audio CD significantly while maintaining CD-like sound quality.

With MP3 you can record up to 10 hours of CD-like music on a single CD-RW.

Either download legal music files from the Internet to your computer hard disc

or create them from your own audio CDs. For this, insert an audio CD into your

computer's CD-ROM drive and convert the music using appropriate encoder

oftware. To achieve good sound quality, a bit rate of 128 kbps or higher is

In order to easily handle the large number of music files on a CD-ROM, you

The tracks of an album will be played in alphabetical order. If you want to

Albums will be arranged in alphabetical order, but subfolders (albums within

If there are MP3 files which you did not put into an album, you will find then

another album) will be played immediately after the album in which they are

arrange them in a certain order, let the file names start with numbers

General MP3 information MP3 music files

 Do not touch the lens (A) of the player. Do not expose the unit, batteries or discs to humidity, rain, sand or excessive heat (caused by heating equipment, or direct sunshine).

· You can clean the player with soft, slightly dampened and lint-free cloth. Do not use any cleaning agents, as they may be corrosive.

 To clean the CD, wipe it in a straight line from the center toward the edge using soft, lint-free cloth

· Never write on a disc or attach a sticker to it.

 Discs and lens may cloud over when the unit is moved suddenly from cold to warm surroundings. Leave the player in a warm environment until the moisture has evaporated.

Active mobile phones in the vicinity may cause malfunctions.

· Avoid dropping the unit as this may cause damage

Environmental information

 We have done our best to make the packaging easily separable into mono materials. Cardboard (box) and polyethylene (bags, protective foam sheet).

· Your set consists of materials which can be recycled if disassembled by a specialized company. Please observe the local regulations regarding the disposal

of packing material, exhausted batteries and old equipment.

TROUBLESHOOTING

WARNING: Under no circumstances should you try to repair the set yourself

as this will invalidate the guarantee. If a fault occurs, first check the points listed below before taking the set for repair. If you are unable to solve a problem by following these hints, consult your dealer or service centre.

No sound/power

· Check if the player is connected securely

Check volume on the player.

 Disconnect headphones when not using headphones Make sure you operate the TV or amplifier correctly.

 Make sure you have selected VCD player position on the amplifier. The power circuit in your player is designed with a power shutdown mode This is activated only during battery power operation of the player when the battery becomes completely drained. When this happens: Connect your player to AC power with the supplied mains adapte

disc operation on AC power supply. Loud noise when operating the player

 This is normal and due to mechanical parts. Playback is not affected The player feels very warm When the player is in use for a long period of time, the surface will be heated.

2 Let the player stand idle for 30 seconds before switching on again to resume

No picture / No color on TV screen Connect the cable between the systems and the TV.
 Change the system to the respective PAL or NTSC setting.

My disc cannot play · Check you have loaded a disc in the player if empty.

 Check you have loaded a disc properly with the label side up. Disc dirty/damaged. Clean the disc properly. Moisture has condensed in the player.

Remove the disc and leave the player to adjust to the surrounding temperature Some audio CDs available on the market are copy protected. These discs will not play on this set. See your retailer for options regarding non-protected audio CDs. Make sure the MP3-CD was recorded within 32-320kbps (128kbps

preferably) with sampling frequencies at 8-48KHz (44.1KHz preferably)

Picture hangs / poor picture quality during VCD playback

VCD disc error operation.Deactivate ESP, if activated, to correct picture playback. Press ■ then ►II to restart playback

Unable to play all tracks from my CD-RW

Disc dirty / damaged. check CD-RW.

Possible recording / MP3 encoding error for particular track(s). Play another

Remote control does not work · Remove obstacle between the remote control and the player, and point directly

instead of at a wide angle at the infrared sensor on the player. • The battery may be exhausted. Replace the battery with a new one. • Try using the remote control with a maximum distance of 3 meters from the sensor on the player.

Picture CD cannot be played

Make sure that the picture CD is JPEG VGA format (640x480 pixels)

NEW ZEALAND

Guarantee and Service for New Zealand Thank-you for purchasing this quality Philips product.

Philips New Zealand Ltd guarantees this product against defective components and faulty workmanship for a period of 12 months. Any defect in materials or orkmanship occurring within 12 months from the date of purchase subject to the following conditions will be rectified free of charge by the retailer from whom this

product was purchased.

1. The product must have been purchased in New Zealand. As proof of purchase, retain the original sales docket indicating the date of purchase.

2. The guarantee applies only to faults caused by defective components, or faulty workmanship on the part of the manufacturer. 3. The guarantee does not cover failures caused by misuse, neglect, normal wear and tear, accidental breakage, use on the incorrect voltage, use contrary to operating instructions, or unauthorised modification to the product or repair by

4. Reasonable evidence (in the form of a sales docket) must be supplied to indicate that the product was purchased no more than 12 months prior to the date of your claim.

5. In the event of a failure, Philips shall be under no liability for any injury, or any loss or damage caused to property or products other than the product under

This guarantee does not prejudice your rights under common law and statute, and is in addition to the normal responsibilities of the retailer and Philips.

Should your Philips product fail within the guarantee period, please return it to

the retailer from whom it was purchased. In most cases the retailer will be able
