- Ease of Installation: Autosearch

Accessories

- Battery: Yes, 1.5V Battery AA LR6

Infrared Capabilities

- Learning IR codes
- Transmitting LEDs: 1
- Universal IR code database
- Number of brands in database: Over 300
- Carrier frequency range: 28 - 70kHz
- Transmission angle: 90 degree
- Learning frequency range: 30 kHz - 60 kHz
- Operating distance: 33 ft (10 m)

Power

- Battery lifetime: 12 Months
- Battery type: AA / LR6 Alkaline
- Number of batteries: 2

Outer Carton

- Length: 354 mm
- Width: 121 mm
- Height: 177 mm
- EAN/UPC/GTIN: 87 10895 93581 4
- Quantity: 3

Packaging Data

- 12NC: 908210006466
- EAN/UPC/GTIN: 87 10895 93580 7
- Length: 338 mm
- Height: 45 mm
- Width: 155 mm

Highlights

Learning functionality

Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

Chrome plated design

Stylish chrome finish that looks good and complememts the latest equipment design.

Automatic backlighting

No more searching for buttons in the dark, because when you pick up the remote control, the keys (or LCD display) automatically light up.

One-touch convenience

One-touch control allows you to perform multiple commands with one press of a button via a macro. A macro combines a string of pre-programmed commands under one single button. Therefore, it simply takes one button press to execute a series of functions.

Auto brand search

Getting your new remote control working is simply a case of having your remote automatically search for the most suitable code for your equipment.

Direct code entry

If your remote doesn't automatically find your equipment brand you can always manually key in its digit code from the comprehensive list supplied in the instructions for use.
