Portable Radio

Classic design

Digital tuning

AE2790

Favourite tunes from a classic design

Philips digital radio that has an extra-large, easy-to-read LCD display with backlight. Comes with line-in connectivity for your MP3 player and a built-in alarm clock. Its wood finishing gives it a classic look and enhances audio quality.

Excellent sound reproduction

- Bass Reflex Speaker System delivers a powerful, deeper bass
- Dynamic Bass Boost for deep and dramatic sound
- 2 W RMS total output power

Easy to use

- Clock, alarm and sleep timer
- Large backlit LCD display for easy viewing in low light
- Built-in clock function

Enjoy your favourite stations

- Digital tuning with preset stations for extra convenience
- MP3 Link for portable music playback

PHILIPS
sense and simplicity

Highlights

Bass Reflex Speaker System

Bass Reflex Speaker System delivers a deep bass experience from a compact loudspeaker box system. It differs from a conventional loudspeaker box system in the addition of a bass pipe that is acoustically aligned to the woofer to optimise the low frequency roll-off of the system. The result is deeper controlled bass and lower distortion. The system works by causing the air mass in the bass pipe to vibrate like a conventional woofer. Combined with the response of the woofer, the system extends the overall low frequency sounds to create a completely new dimension of deep bass.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can

enjoy consistent sound even when you turn down the volume.

2 W RMS

This system has 2 W RMS total output power. RMS refers to Root Mean Square, which is a typical measurement of audio power, or rather, the electrical power transferred from an audio amplifier to a loudspeaker, which is measured in watts. The amount of electrical power delivered to the loudspeaker and its sensitivity determines the sound power that is generated. The higher the wattage, the better the sound power emitted by the speaker.

Clock, alarm and sleep timer

Clock, alarm and sleep timer

Large backlit LCD display

Backlit LCD display ensures easy viewing and operation in low light conditions, and provides clear information at a glance.

Built-in clock

A built-in clock keeps time accurately. When the radio is off, the clock display comes on for added convenience.

Digital tuning with presets

Digital tuning with preset stations for extra convenience

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

Specifications

Sound

- Sound enhancement: Dynamic Bass Boost
- Sound system: mono
- Volume control: rotary (digital)
- Output power: 2 W

Tuner/Reception/Transmission

- Tuner bands: FM, MW
- Station presets: 20
- Tuner enhancement: auto digital tuning

Connectivity

- Audio/Video output: Headphone (3.5 mm)
- MP3 Link: 3.5 mm stereo line in

Convenience

- Display Digits: 5
- Backlight colour: white
- Clock: sleep timer
- Display type: LCD display

Accessories

- Cables/Connection: AC-DC adapter, audio cable
- Others: User Manual

Dimensions

- Product weight: 1.67 kg
- Master carton quantity: 2
- Main unit depth: 141 mm
- Main unit height: 137 mm
- Main unit width: 260 mm

Power

- Battery type: C size (LR14)
- Battery voltage: 1.5 V
- Power supply: 220 - 240 V
- Number of batteries: 6

Loudspeakers

- Speaker drivers: 3" full-range woofer

Issue date 2011-07-21

Version: 2.0.5
