NOTE! This copyright does **not** cover user programs that use kernel services by normal system calls - this is merely considered normal use of the kernel, and does **not** fall under the heading of "derived work". Also note that the GPL below is copyrighted by the Free Software Foundation, but the instance of code that it refers to (the linux kernel) is copyrighted by me and others who actually wrote it. Also note that the only valid version of the GPL as far as the kernel is concerned is `_this_` particular version of the license (ie v2, not v2.2 or v3.x or whatever), unless explicitly otherwise stated.

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:
 - a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 - b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
 - c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.
7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.
9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>
Copyright (C) 19yy <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 675 Mass Ave, Cambridge, MA 02139, USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

```
Gnomovision version 69, Copyright (C) 19yy name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for
details.
```

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

```
<signature of Ty Coon>, 1 April 1989
Ty Coon, President of Vice
```

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Library General Public License instead of this License.

Busybox, the Linux IR control package, SquashFS and mtd-utils are subject to the GPL, a copy of which is included at item 2.

DirectFB, glibc, libusb-compat and libusb are subject to the following license:

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License").

Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:
 - a) The modified work must itself be a software library.
 - b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
 - c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
 - d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

Section 6 states terms for distribution of such executables.

When a “work that uses the Library” uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6.

Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a “work that uses the Library” with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable “work that uses the Library”, as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.
- c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the “work that uses the library” must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:
 - a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
 - b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.
10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.

You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.
13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH

YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

17. SQLite

All of the deliverable code in SQLite has been dedicated to the HYPERLINK "http://en.wikipedia.org/wiki/Public_Domain" public domain by the authors. All code authors, and representatives of the companies they work for, have signed affidavits dedicating their contributions to the public domain and originals of those signed affidavits are stored in a firesafe at the main offices of HYPERLINK "<http://www.hwaci.com>" Hwaci. Anyone is free to copy, modify, publish, use, compile, sell, or distribute the original SQLite code, either in source code form or as a compiled binary, for any purpose, commercial or non-commercial, and by any means.

The previous paragraph applies to the deliverable code in SQLite - those parts of the SQLite library that you actually bundle and ship with a larger application. Portions of the documentation and some code used as part of the build process might fall under other licenses. The details here are unclear. We do not worry about the licensing of the documentation and build code so much because none of these things are part of the core deliverable SQLite library.

All of the deliverable code in SQLite has been written from scratch. No code has been taken from other projects or from the open internet. Every line of code can be traced back to its original author, and all of those authors have public domain dedications on file. So the SQLite code base is clean and is uncontaminated with licensed code from other projects.

MEDDELANDE

SLUTANVÄNDARAVTAL FÖR PROGRAMVARA

DETTA SLUTANVÄNDARAVTAL FÖR PROGRAMVARA ("AVTALET") ÄR ETT JURIDISKT BINDANDE AVTAL MELLAN DIG (EN FYSISK ELLER JURIDISK PERSON) OCH PHILIPS CONSUMER LIFESTYLE B.V., ETT NEDERLÄNDSKT AKTIEBOLAG MED SÄTE PÅ ADRESSEN HIGH TECH CAMPUS 37, 5656 AE EINDHOVEN, NEDERLÄNDERNA OCH DESS DOTTERBOLAG (NEDAN INDIVIDUELLT OCH GEMENSAMT KALLADE "PHILIPS"). AVTALET GER DIG RÄTT ATT ANVÄNDA VISS PROGRAMVARA ("PROGRAMVARAN") OCH ANVÄNDAROKUMENTATION I ELEKTRONISK FORM SOM KAN HA TILLHANDAHÅLLITS SEPARAT ELLER TILLSAMMANS MED EN PHILIPS-PRODUKT ("ENHETEN") ELLER EN DATOR. GENOM ATT HÄMTA, INSTALLERA ELLER PÅ ANNAT SÄTT ANVÄNDA PROGRAMVARAN GODKÄNNER DU VILLKOREN I AVTALET. OCH FÖRBINDER DIG ATT FÖLJA DEM. OM DU INTE GODKÄNNER VILLKOREN SKA DU INTE HÄMTA, INSTALLERA ELLER PÅ ANNAT SÄTT ANVÄNDA PROGRAMVARAN. OM DU FÖRVÄRVT PROGRAMVARAN PÅ ETT FYSISKT MEDIUM, EXEMPELVIS EN CD, UTAN MÖJLIGHET ATT FÖRST GRANSKA DENNA LICENS OCH INTE GODKÄNNER VILLKOREN, HAR DU MÖJLIGHET ATT ÅTERFÅ HELA DEN SUMMA SOM DU BETALAT FÖR PROGRAMVARAN OM DU RETURNERAR PROGRAMVARAN I OANVÄNT SKICK TILLSAMMANS MED INKÖPSKVIKTOT INOM 30 DAGAR FRÅN INKÖPSDAGEN.

- Licens.** Du erhåller genom Avtalet en icke-exklusiv licens att på Enheten eller en dator uteslutande för personligt bruk installera och använda ett (1) exemplar av den angivna versionen av Programvaran i objekt-kodsformat i enlighet med användardokumentationen. Licensen får inte överlåtas eller vidarelicensieras. Programvaran "används" när den laddas i det temporära eller permanenta minnet (d.v.s. RAM-minne, hårddisk etc.) på datorn eller Enheten.
- Äganderätt.** Licensen till denna programvara säljs inte utan upplåts endast till dig. Avtalet ger dig endast rätt att använda Programvaran, men du förvärvar inte, varken uttryckligen eller underförstått, några rättigheter till Programvaran utöver vad som anges i Avtalet. Philips och dess licensgivare förbehåller sig äganderätten till Programvaran, vilket innefattar alla patent, upphovsrätter, företagshemligheter och andra immateriella rättigheter som ingår däri. Programvaran skyddas av lagstiftning om upphovsrätt, internationella konventioner och annan immaterialrättslig lagstiftning. Du får därför inte på annat sätt än vad som uttryckligen anges i Avtalet kopiera Programvaran utan föregående skriftligt medgivande från Philips, med undantag för att du får framställa en (1) säkerhetskopiera av Programvaran. Du får inte kopiera tryckt material som medföljer Programvaran och inte skriva ut fler än en (1) kopia av den användardokumentation som tillhandahålls i elektronisk form. Däremot får du göra en (1) säkerhetskopiera av tryckt material.
- Licensbegränsningar.** Med undantag för vad som uttryckligen anges i Avtalet får du inte hyra ut, leasa, vidarelicensiera, sälja, överlåta, låna ut eller på annat sätt förfoga över Programvaran. Du får inte själv söka efter programvarans källkod, dekompileera eller disassemblera Programvaran eller ge tredje part tillstånd till detta, med undantag för de fall när tillämplig lagstiftning uttryckligen förbjuder nämnda begränsning. Du får inte ta bort eller förstöra produkt- och upphovsrättsmärkning eller andra märken eller varningstexter från Programvaran. Alla titlar, varumärken och upphovsrättsliga meddelanden och meddelanden om begränsade rättigheter ska återges på din säkerhetskopiera av Programvaran. Du får inte ändra Programvaran, integrera Programvaran i ett annat program eller skapa material som bygger på Programvaran.
- Friskrivning** PROGRAMVARAN ÄR FRAMTAGEN FÖR ATT HJÄLPA DIG ÖVERFÖRA MATERIAL SOM DU ÄGER UPPHOVSRÄTTEN TILL ELLER SOM DU HAR ERHÅLLIT TILLÅTELSE FRÅN UPPHOVSRÄTTSÄGAREN ATT HÄMTA OCH ÖVERFÖRA. OM DU INTE ÄGER UPPHOVSRÄTTEN ELLER HAR TILLSTÅND FRÅN UPPHOVSRÄTTSÄGAREN ATT HÄMTA OCH ÖVERFÖRA MATERIALET, FINNS DET RISK ATT DU BRYTER MOT UPPHOVSRÄTTSLAGEN OCH KAN DÖMAS ATT BETALA BÖTER ELLER ANNAT SKADESTÅND. OM DU ÄR OSÄKER PÅ DINA RÄTTIGHETER BÖR DU KONTAKTA EN JURIST. DU TAR FULLT ANSVAR FÖR ATT ANVÄNDA PROGRAMVARAN PÅ ETT LAGLIGT OCH ANSVARSFULLT SÄTT.
- Friskrivning och begränsningar från tredje part, WM-DRM:** WM-DRM: Leverantörer av material använder Microsofts teknik för förvaltning av digitala rättigheter för Windows Media ("WM-DRM") för att skydda materialet ("Skyddat Material") så att deras immateriella rättigheter, inklusive upphovsrätt, för sådant material inte missbrukas. Delar av denna programvara och andra program från tredje part ("WM-DRM-programvara") använder WM-DRM för att överföra eller spela Skyddat Material. Om WM-DRM-programvarans säkerhet har äventyrats kan ägarna av Skyddat Material ("Ägare till Skyddat Material") begära att Microsoft återkallar WM-DRM-programvarans rätt att kopiera, visa, överföra och/eller spela Skyddat Material. Ett återkallande påverkar inte WM-DRM-programvarans

förmåga att spela upp oskyddat material. En lista över återkallad WM-DRM-programvara skickas till din dator när du laddar ner en licens för Skyddat Material från Internet. Microsoft kan, i samband med en sådan licens, även ladda ner återkallningslistor till din dator på uppdrag av Ägare till Skyddat Material. Ägare till Skyddat Material kan även begära att du uppgraderar vissa WM-DRM-komponenter som distribueras med denna programvara ("WM-DRM-uppgraderingar") innan du använder deras material. När du försöker spela sådant material meddelar WM-DRM-programvara från Microsoft att en WM-DRM-uppgradering krävs och ber om ditt godkännande innan WM-DRM-uppgraderingen laddas ner. WM-DRM-programvara som används av tredje part kan göra detsamma. Om du nekar till uppgraderingen får du inte tillgång till material som kräver WM-DRM-uppgraderingen, men du har fortfarande tillgång till oskyddat material och Skyddat Material som inte kräver uppgraderingen.

6. **Programvara med öppen källkod.** (a) Den här programvaran kan innehålla komponenter där principen om öppen källkod är tillämplig, vilket anges i den dokumentation som medföljer Enheten. Det här Avtalet omfattar inte de delarna av programvaran i sig. (b) Din licens under det här Avtalet ger dig inte rätt eller en licens att använda, distribuera eller skapa material som bygger på Programvaran på ett sätt som medför att principen om öppen källkod blir tillämplig på Programvaran. "Principen om öppen källkod" avser villkor i en licens som direkt eller indirekt (1) skapar eller syftar till att skapa förpliktelser för Philips ifråga om Programvaran eller material som bygger på Programvaran, eller (2) ger, eller syftar till att ge, en tredje part rättighet eller immunitet under Philips immateriella rättigheter eller äganderätt till Programvaran eller material som bygger på denna.
7. **Upphörande.** Avtalet börjar gälla vid installationen eller den första användningen av Programvaran och upphör att gälla (i) om Avtalet uppsägs av Philips på grund av att du bryter mot villkor i Avtalet, eller (ii) när alla exemplar av Programvaran och tillhörande material som du erhållit från Philips i enlighet med Avtalet förstörts. Philips rättigheter och dina skyldigheter gäller även efter Avtalets upphörande.
8. **Uppgraderingar.** Philips kan på eget initiativ tillhandahålla uppgraderingar till Programvaran på en webbplats eller på annat sätt. Uppgraderingar kan göras tillgängliga i enlighet med villkoren i Avtalet, men kan också tillhandahållas på villkor att du godkänner ett nytt avtal.
9. **Support.** Philips har ingen skyldighet att tillhandahålla teknisk eller annan support ("Support") för Programvaran. Om Philips tillhandahåller Support ska detta regleras i separat avtal mellan dig och Philips.
10. **Begränsad programvarugaranti.** Philips tillhandahåller Programvaran "i befintligt skick" och garanterar endast att Programvaran väsentligen fungerar i enlighet med den medföljande dokumentationen under en period om nittio (90) dagar från det att du hämtat, installerat eller använt Programvaran för första gången. Tiden räknas från den av de tre händelserna som inträffar först. Philips ansvar och den ersättning som du erhåller om denna garanti inte infrias är efter Philips gottfinnande begränsat till (i) återbetalning av vad du betalat för Programvaran, eller (b) reparation eller utbyte av Programvara som inte motsvarar den garanti som anges i Avtalet och som returneras till Philips tillsammans med en kopia av inköpskvittot. Garantin gäller inte om felet i Programvaran har uppstått till följd av olyckshändelse, vårdslös hantering eller felaktig användning. Ersättningsprogramvara tillhandahålls med en garanti motsvarande det längsta av återstoden av den ursprungliga garantiperioden eller trettio (30) dagar. Garantin gäller inte om du erhållit Programvaran utan kostnad och uteslutande för utvärdering.
11. **INGA ÖVRIGA GARANTIER.** MED UNDANTAG FÖR VAD SOM ANGIVITS OVAN GARANTERAR PHILIPS OCH DESS LICENSGIVARE INTE ATT PROGRAMVARAN FUNGERAR UTAN FEL ELLER AVBROTT ELLER ATT DEN MOTSVARAR DINA BEHOV. DU ANSVARAR SJÄLV FÖR ATT VÄLJA EN PROGRAMVARA SOM GER AVSETT RESULTAT SAMT FÖR INSTALLATION OCH ANVÄNDNING AV PROGRAMVARAN OCH DE RESULTAT SOM ERHÅLLS MED DENNA. PHILIPS OCH DESS LICENSGIVARE FRISKRIVER SIG, I DEN MAXIMALA UTSTRÄCKNING SOM MEDGES AV TILLÄMPLIG LAG, FRÅN ALLT ANSVAR FÖR UTTRYCKLIGA ELLER UNDERFÖRSTÅDDA VILLKOR OCH GARANTIER, VILKET INNEFATTAR MEN INTE ÄR BEGRÄNSAT TILL UNDERFÖRSTÅDD GARANTI AVSEENDE SÄLJBARHET, LÄMPLIGHET FÖR VISST ÄNDAMÅL, RIKTIGHET ELLER FULLSTÄNDIGHET I DE RESULTAT SOM UPPNÅS MED PROGRAMVARAN OCH MEDFÖLJANDE MATERIAL. PHILIPS GARANTERAR INTE FRÅNVARON AV INTRÅNG I TREDJE PARTS RÄTTIGHETER. PHILIPS GARANTERAR INTE ATT DU KAN HÄMTA, KOPIERA, LAGRA, VISA, ÖVERFÖRA ELLER SPELA UPP SKYDDAT MATERIAL.
12. **ANSVARSBEGRÄNSNING FÖR SKADA.** PHILIPS OCH DESS LICENSGIVARE ANSVARAR INTE I NÅGOT FALL FÖR FÖLJDSKADA, SPECIELL SKADA, INDIREKT SKADA, SKADESTÅND TILL FÖLJD AV OLYCKA ELLER STRAFFRÄTTSLIGT SKADESTÅND, VILKET UTAN BEGRÄNSNING INNEFATTAR ERSÄTTNING FÖR UTEBLIVEN VINST ELLER INTÄKT, AVBROTT I AFFÄRSVERKSAMHET, FÖRLUST AV AFFÄRSINFORMATION, FÖRLUST AV DATA, OFÖRMÅGA ATT ANVÄNDA PROGRAMVARAN ELLER ANNAN EKONOMISK SKADA, ÄVEN OM PHILIPS ELLER DESS LICENSGIVARE INFORMERATS OM RISKEN FÖR SÅDAN SKADA. PHILIPS OCH DESS LICENSGIVARES SAMMANLAGDA SKADESTÅNDSANSVAR PÅ GRUND AV AVTALET SKA INTE I NÅGOT FALL ÖVERSTIGA DET HÖGSTA BELOPPET AV ANTINGEN DET PRIS SOM DU BETALAT FÖR PROGRAMVARAN ELLER FEM (5,00) EURO.

13. **Varumärken.** Vissa av produktnamnen och Philipsnamnen i Avtalet, Programvaran och den tryckta användardokumentationen, kan utgöra varumärken som tillhör Philips, dess licensgivare eller annan tredje part. Du har inte rätt att använda dessa varumärken.
14. **Exportregler.** Du förbinder dig att inte utan att först erhålla exportlicens eller annat godkännande exportera eller återexportera Programvaran till något land som omfattas av krav på exportlicens eller annat godkännande av amerikansk myndighet enligt United States Export Administration Act eller annan liknande amerikansk lag eller bestämmelse. Genom att hämta eller installera Programvaran förbinder du dig att följa denna exportbestämmelse.
15. **Tillämplig lag.** Det här avtalet omfattas av de lagar som gäller i det land där du har hemvist, utan beaktande av det landets principer om lagkonflikter i tvistemål. Eventuella tvister mellan dig och Philips avseende det här Avtalet ska hänskjutas till avgörande vid domstolarna i det land där du har hemvist.
16. **Allmänt** Avtalet utgör hela den överenskommelse som träffats mellan dig och Philips och ersätter alla tidigare utfästelser, åtaganden, meddelanden eller reklambudskap ifråga om Programvaran och användardokumentationen. Om någon del av Avtalet skulle befinnas vara ogiltig äger den resterande delen av Avtalet oförändrad giltighet. Avtalet inskränker inte parts rättigheter enligt tvingande regler i konsumentlagstiftningen.
