Highlights

48 dB amplification

48 dB amplification boosts weak signals, expanding your reception range and allowing you to receive more signals over a greater distance.

GSM filter

Enhanced GSM filter prevents interference from GSM networks

Adjustable gain control

Allows you to easily improve reception range

Compact design

The compact design of this antenna will easily blend in with your home decor.

Noise reduction filter

Noise reduction filter to protect against signal loss

Adjustable VHF dipoles

180° turn radius with 90° tilt allows VHF element to be adjusted easily for maximum signal

ON/OFF switch and gain control

A 3-stage gain control that offers 3 levels of amplification for easy setup and an improved reception range.
