Highlights

Hybrid active noise cancelling

These true wireless headphones don't just look great, they also let you focus. Advanced hybrid active noise cancellation (ANC) filters out unwanted sounds and Awareness Mode lets you hear the world around you.

Clear sound, good bass

On the move. On the train. In the park or gym. Wherever you listen, perfectly tuned 12 mm neodymium drivers give you clear sound and deep bass for every track, playlist and call.

Secure, comfortable in-ear fit

Enjoy real comfort thanks to soft, interchangeable silicone ear tip covers. The ear tips on each earbud insert into your ear canal, creating a perfect seal that diminishes external noise. The hockey stick design keeps each earbud secure.

Easy control and pairing

Controls on the earbuds let you pause your playlist, take calls and wake your phone's voice assistant. The headphones are ready to pair in an instant. Once paired, they reconnect with your phone as soon as you open the charging case.

Mono mode

Taking a lot of calls? You can double your talk time by using one earbud while the other one charges. The mic is automatically assigned to the earbud you're using. Simply swap over when your current earbud is running low on battery.

IPX4 splash/sweat resistant

With an IPX4 rating, these true wireless headphones are resistant to splashes from any direction. They won't mind a little sweat and you don't need to worry about getting caught out in the rain.

Portable charging case

Working overtime? These headphones can keep up. You get 9 hours and 6 hours of play time from a pair of fully charged earbuds with ANC off and ANC on respectively, and a fully charged case gives you another 20 hours and 15 hours respectively.
