- Share JPEG image files with Picture CD

### For ultimate convenience

- Car mount pouch included
- Car adapter and handy remote control included
- Few buttons for simple and easy control
- Share entertainment fun with multi-headphone jacks

# PHILIPS

# Highlights

## Dual TFT LCD display screens

Dual screens allow you to display the same videos or images from the portable DVD player. Simply plug in and mount the screens on the headrests in your car. Now you can enjoy your favourite DVD movies and JPEG photos with family and friends in the back seats easily and comfortably.

## Play DVD, DivX and MPEG4

With DivX<sup>®</sup> support, you are able to enjoy DivX<sup>®</sup> encoded videos in the comfort of your

living room. The DivX<sup>®</sup> media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, memory cards and DVD-video. DivX<sup>®</sup> CDs can be played back on selected DVD players, DVD Recorders and Home Theatre Systems.

## MP3-CD, CD and CD-RW music

MP3 is a revolutionary compression technology by which large digital music files can

be made up to 10 times smaller without radically degrading their audio quality. A single CD can store up to 10 hours of music.

## Share picture CD (JPEG)

Multi-format playability allows you to view images on the go and play most disc formats for maximum disc compatibility and viewing pleasure.

# Specifications

## Picture/Display

- Display screen type: LCD TFT
- Diagonal screen size (inch): 7 inch
- Resolution: 480(w) x 234(H) x 3(RGB)
- Brightness: 200 cd/m<sup>2</sup>
- LCD panel type: Anti-glare polariser
- Contrast ratio (typical): 250:1
- Effective viewing area: 154.1 x 86.6 mm
