Cordless phone  
1.6" display/amber backlight

# Highlights

## 4.1 cm (1.6") display

Easy to read 1.6" (4.1 cm) display with backlight

## Caller ID\*

Sometimes it's good to know who's calling before you answer. And our Caller ID lets you keep track of who's on the other end of the line.

## Easy setup

Ultimate convenience through easy set up.  
Simplified installation - Plug and Play product

## Non-slip grip

The rear of the handset is treated with a special texture for added comfort and better grip.

## Up to 10 hours' talk time

Up to 10 hours' talk time on a single charge

## Advanced sound testing

We test the sound quality of our DECT phones the same way as high-end headphone manufacturers do. Using an advanced ear simulator, we can accurately re-create the way people actually hear. This helps our acoustic engineers to measure and fine-tune things like frequency response, distortion and overall hearing perception, to create perfect voice reproduction.

## Automatic Volume Control

Automatic Volume Control offsets variations in sound signal, which can be caused by distance, signal strength or the caller's phone — so what you hear always remains consistent. Reducing the audio amplification for strong signals, and increasing it for weak ones, means you can enjoy a smooth conversation without unwanted sound volume variation.

D1601B/05

## Eco-conscious product

Philips phones are energy efficient and designed to be respectful to the environment.

## Optimised antenna layout

Our optimised antenna layout ensures strong and stable reception, even in areas of the house where cordless transmission is difficult. Now you can take a call wherever you are in the house, and enjoy a long, uninterrupted conversation even as you walk around.

## Parametric Equaliser

Our telephones use parametric equalisation in the digital sound processing to fine tune the sound response back to the intended linear frequency response curve, delivering sound that is pure and clear, for each conversation.

# Specifications

## Convenience

- Menu structure in the handset: List Menu
- Signal strength indicator: 3 bar indicator
- Battery level indicator: 3 bar battery icon
- Date/Time display
- Programmable hot keys: Key 1 and 2
