Stable and lasting performance

Even better with one grip to unlock

With the fingerprint sensor integrated into the handle, unlocking is conveniently in one grip. Its dual verification and hidden PIN code functions enhance home entry security. 4 smart unlocking methods and auto-locking makes life easier.

Extraordinary design brings outstanding experience
• With a single grip

Life is more than convenient
• Eliminating the hassle of repetitive locking
• Enjoy the resassurance whenever door is closed

Multiple protection in one for overall home safety
• Protect home security at all time
• Security is assured
• Effectively reminds security risks
• Protects your PIN code security in real-time
• Eliminates tempering risk while away

PHILIPS

Highlights

Enjoy easy unlock

Semiconductor fingerprint sensor

The fingerprint sensor is integrated in the handle lever so that when you hold the handle, your fingertip will naturally fall on the sensor. Upon successful authentication, you can press down the handle and unlock the door swiftly.

### Multiple alerting function

Multiple alarms

Philips 7300 has been featured with an all-round alert function. It improves the anti-theft level of your home, safeguards your family in real-time, and reminds you of the door lock status.

Dual verfication mode

Dual verification

With any two combinations of fingerprint, PIN code, and key tag verification under dual verification mode, you can unlock the door, which provides double protection for home security.

Outside forced locking

Outside forced lock function

Before leaving home, you can touch the outside forced lock button to enable the function. In this mode, opening the door from inside will trigger an alert. This feature can effectively remind you of security risks and upgrade the level of home security.

Hidden PIN code

Fake PIN Code

Feature with hidden PIN code technology, Philips smart lock allows you to enter any random number combinations to successfully get identified as long as there is a consecutive input of the real password. This feature can effectively prevent peeping and safeguard your real password.

Safe handle function

Enable safe handle function

You can enable the safe handle function before leaving home. After the door is locked, the

indoor handle will be locked up to ensure that nobody could open the door by pushing the indoor handle. This feature can effectively prevent unlocking from inside through the door viewer, thus eliminating security risks and improves anti-theft performance.

Auto mortise

3 proofs mortise

Feature with automatic locking function,the Philips 7300 lever lock reduces the security risks associated with forgetting to close the door.

Auto locking

Automatic locking

Philips 7300 utilizes automatic mortise. Without the need for any additional action, the deadbolt will spontaneously pop up after you close the door. If the door is not locked properly, the lock will sound an alert to remind you of the door lock status.

Specifications

Design & Appearance
- Color: Red copper
- Handle: Lever handle
- Surface Processing: Electroplating
- Fingerprint Sensor: Semiconductor

Access Solution
- Fingerprint
- Password/PIN Code
- Card/Key Tag
- Mechanical Key

Lock Capacity
- Fingerprint: Up to 100
- Card/Key Tag: Up to 100
- Master PIN Code: 1
- User PIN Code: Up to 10
- One-time PIN Code: 1

Power Specification
- Power Supply: 4 AA batteries
- Battery Type: Alkaline Batteries
- Time of Use: 10 months*
- Maximum Batteries Capacity: 8 batteries
- Emergency Power Supply: 5V power bank
- Working Voltage: 4.5-6V

Easy Operation
- Indicator: Door locks status prompt, Low battery prompt, Mute status prompt, Outside forced lock prompt, System locking prompt
- Voice Guide: Human voice guide

Smart Lock Functions
- Mortise: C grade lock cylinder
- Locking Function: Indoor deadlock, System locking
- Safety Function: Dual verification, Hidden PIN code, Outside forced lock function, Safe handle funtion
- Alarm Function: Abnormal bolt alarm, Anti-dismantle alarm, Anti-prying alarm, Outside forced lock alarm

Mode
- Operationg Mode: Auto mode, Manual mode
