Fill the room with tunes

- Mains-powered (AC-in). Remote control
- Main unit dimensions: 240 x 145 x 230 mm
- Speaker dimensions: 241 x 261 x 173 mm

PHILIPS

Highlights

All your music

This smart, compact music system lets you stream playlists and more with rich, room-filling sound. Dust off the classics in your CD collection thanks to a CD player that also plays MP3 CDs and recorded CDs. The digital radio tuner delivers crystal-clear reception and you can set up to 20 presets for your favourite DAB+ or FM stations.

Rich sound with full bass

The bookshelf-style loudspeakers give you crisp high ends from dome tweeters and powerful bass from 5.25" woofers and bass-reflex ports. 150 W maximum output ensures you'll fill almost any room with your favourite

tunes. The fabric speaker covering can be removed for a more modern look.

Old school, meet new school

With its clean lines, brushed aluminium front and twin illuminated volume monitors, the central unit of this micro system recalls classic hi-fi designs. The textured volume-control dial and bass and treble knobs add a satisfying analogue feel to operation. Buttons on top of the unit control pairing, source selection and playback/tuning.

Fine-tune every classic

Tweak the treble and bass settings just how you like with the control knobs on the central

unit. Paired analogue volume meters let you check the input signal level for the best sound reproduction. Simply change the output volume on your device until the needle stays away from the red peak area.

At home in your home

This AC-powered micro system looks great in any room. The Bluetooth wireless range is 10 m, and you can charge a smart device via the USB port when the system is in standby mode. An easy-to-use remote puts key system functions at your fingertips—so you can control the mood without breaking the mood.
