Close shave, advanced skin protection with SkinIQ Technology

The Philips Series 7000 glides smoothly over your skin, while cutting each hair close - even on 3 day beards. Equipped with advanced SkinIQ technology, the shaver senses, adapts and guides on the correct motion, for better skin protection.

A close shave

- Powerful performance in every pass
- Engineered for precision and cutting efficiency
- Adjusts to your facial contour for optimal skin contact
- Unique OneBlade technology

SkinIQ technology

- Reduces friction on skin to minimise irritation
- Enhanced shaving experience with app
- Adjusts to your beard for effortless shaving
- Guides you to an improved technique with fewer passes

For a convenient shave

- Powerful cleaning pod for maintenance and hygiene
- Up to 60 minutes of cordless shaving when fully charged
- 1 hour charging time and 5 min quick charge

Sustainability

Highlights

Nano SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 250.000 micro-tech beads per square centimetre, improves gliding on skin by up to 30%***, to minimise irritation.

SteelPrecision blades

With up to 90,000 cutting actions per minute, the SteelPrecision blades shave close, cutting more hair per stroke*. The 45 high-performance blades are self-sharpening and made in Europe.

Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to a more efficient technique. After just three shaves, the majority of men achieved a better shaving technique for fewer passes***.

Personalisation via app

Perfect your shave by pairing your shaver with the Philips Shaving app. Shave by shave, track the progress of your skin, personalise your shave and master your technique for a shave that's as close as it is kind to skin.

Power Adapt sensor

The intelligent facial-hair sensor reads hair density 500 times per second. The technology auto-adapts cutting power for an effortless and gentle shave.

360 D Flexing heads

Fully flexible heads turn 360° to follow your facial contours. Experience optimal skin contact for a thorough and comfortable shave.

Unique OneBlade technology

Designed for facial styling and body grooming, the Philips OneBlade trims, edges and shaves any length of hair. It delivers an easy and comfortable shave thanks to a glide coating and rounded tips. And with a cutter that moves at 200 x per second, it's efficient even on longer hairs.

Cable-free Quick Clean Pod

10 x more effective than cleaning with water****, the powerful cleaning pod thoroughly cleans and lubricates your shaver in just 1 minute. Using it helps maintain shaver performance and increase hygiene.

Hair-Guide Precision heads

The new shape of the shaving heads is engineered for precision. The surface is enhanced with hair guiding channels, designed to move hair into an effective cutting position.

Specifications

Trimming and shaving performance

Shaving system: Contour-following technology, Dual protection system

Trimming system: Contour-following technology

Accessories

Comb: Click-on skin guard, Click-on body comb

Charging stand

Maintenance: Cleaning brush (S7000), Storage cap (OneBlade)
