Highlights

Keep warm function

Once your kettle reaches your desired temperature, our smart keep-warm function maintains the exact water temperature. No need to reboil.

Family-sized 1.7L capacity

Ideal for serving the whole family or a group. With a 1.7L capacity, our kettle can efficiently boil enough water for up to 7 cups.

Optimal temperature for 10+ food and drinks

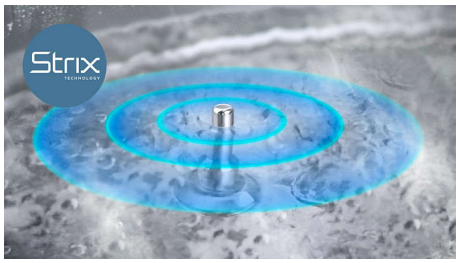

Teas, coffees, baby food, cocoa, instant noodles and more all benefit from being heated at different temperatures. This temperature control kettle offers 6 temperature settings from 40C to 100C for perfect and safe servings everytime.

Precision temperature display

Monitor your chosen temperature and observe it precisely align with your setting in real-time via the intelligent handle display.

Boil dry protection

The built-in Strix controller ensures that it switches off automatically when empty of water or lifted from its base. This reduces the risk of it boiling dry causing damage and prevent energy wastage.

Double walled for a safe-to-touch surface

No need to wait for your kettle's exterior to cool down. Our temperature control kettle features a double insulated layer that ensures a constant cool exterior to the touch while maintaining water warmth inside for longer sips of comfort.

Fast boil, easy clean design

The kettle has a stainless steel inner pot with a wide opening that is designed to boil fast and be easy to clean.

360-degree base

Simply position the kettle on the base, adjusting it to your preferred direction using the convenient pirouette connector center.

Food-grade stainless steel

Always enjoy a safe and clean serving. The kettle is made from food-grade stainless steel for maximum hygiene and anti corrosion
