- Optional accessories: Carry case, Deluxe headset, Normal battery pack, USB data cable + PC software

# Highlights

## Video capture

The video recording function lets you capture precious moments in motion at 4, 6, or 9 frames per second.

## MMS video

MMS video lets you record and share exciting multimedia messages with your friends and family just by attaching a video clip.

## Integrated VGA digital camera

The integrated digital camera with VGA resolution (640x480 pixels) allows you to take high-quality pictures anytime, anywhere with your phone, then send them via MMS or email, or store the pictures in your phone's memory.

## 40-tone polyphonic melodies

40-tone polyphonic melodies can create simultaneous tones of different notes using MIDI format for more natural and realistic musical results, sounding just like a small orchestra of different instruments for outstanding sound effects.

## Voice ringtones

Voice ringtones lets you use your phone's built-in recording function in AMR format to create a voice clip from a loved one or other source to use as a fun and memorable ringtone.

## Triband phone GSM900/1800/1900

GSM mode including 900MHz, 1800MHz and 1900MHz gives your phone worldwide coverage.

## Java 2.0

Java 2.0 technology allows you to enhance and personalize your phone with new games and applications simply by downloading them.

## WAP 2.0

WAP 2.0 optimizes the usage of packet-based connection technology with higher bandwidths to more easily connect your phone to WAP-enabled web sites, allowing you to access comprehensive information whenever you need it.
