# Highlights

### AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups*, while enjoying clear and purified water.

### 4 aromatic coffees

Enjoy your favourite coffees for your special moments. Whether you're craving an espresso, a coffee or a milk-based recipe, your fully automatic machine delivers a perfect in-cup result with no hassle and in no time!

### Classic milk frother

The Classic Milk Frother dispenses steam, allowing you to easily prepare silky smooth milk froth for your cappuccino. What's more? With only two parts, the Classic Milk Frother is also easy to clean.

### Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favourite coffee.

### My Coffee Choice

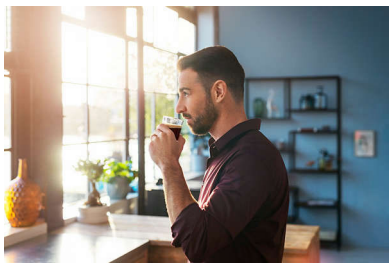

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

### 12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

### Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

### 100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures that they last for at least 20.000 cups.

### Preserve beans' aroma

The new Aroma seal protects your favourite coffee beans and makes sure they preserve their original aroma over time, while reducing the grinder noise.
