- Subwoofer (W x H x D): 155 x 391 x 161 mm
- Subwoofer Weight: 3.69 kg

Packaging dimensions

- Packaging dimensions (W x H x D): 96 x 19 x 26.5 cm
- Gross weight: 6.38 kg
- Nett weight: 4.8 kg
- Tare weight: 1.58 kg
- Number of products included: 1
- Packaging type: Box
- Type of shelf placement: Laying
- EAN: 48 95229 13466 9

Outer Carton

- Outer carton (L x W x H): 98 x 38 x 21 cm
- Gross weight: 13.8 kg
- Nett weight: 9.6 kg
- Tare weight: 4.2 kg
- Number of consumer packagings: 2
- GTIN: 1 48 95229 13466 6

Highlights

2.1 channels with subwoofer

2.1 channels and immersive audio technology bring new levels of sound, while the ultra-compact wireless subwoofer adds impressive weight to effects and music. Four EQ modes let you pick a sound style to suit what you're watching—and voices get clearer in any mode if you activate Dialogue Enhancement.

Ultra-slim design

This soundbar has a profile of just 37 mm: it will even fit under Ambilight TVs with lower stands, and the detachable wall brackets (included) give you options. The ultra-compact, powerful subwoofer is easy to conceal and you can position it vertically or horizontally.

Dolby Atmos

Dolby Atmos places sound effects in the space around and above you, creating three-dimensional spatial sound that pulls you in deeper. Activate it via the surround-sound button on the soundbar's remote, or the Philips Home Entertainment app. You'll feel like you're right in the middle of the action.

DTS Virtual:X

Compatibility with DTS Virtual:X transforms your TV sound, bringing you a virtual 3D sound experience no matter what's on screen! You don't need extra speakers, and it works in any room: turn it on via the soundbar's remote control, or the Philips Home Entertainment app.

HDMI eARC. Philips EasyLINK

You can adjust the volume on your soundbar using your TV remote. If you have a Philips Ambilight TV, the EasyLINK function lets you use the remote to switch between the soundbar's preset EQ modes, adjust bass and treble—and more.

Easy connections

Compatibility with Bluetooth LE Audio gives you a steadier connection, better sound, and less lag if you're streaming playlists from a smart device that is also compatible with Bluetooth LE Audio. You can also connect audio sources to the soundbar via audio-in, USB, or optical input.

Philips Home Entertainment app

Download the app and you can use your smart device to switch between the EQ sound modes, select source, activate virtual surround sound, and more. Want to enhance the bass you feel in effects and soundtracks? Activate InfraBass and the room will rumble.
