PHILIPS

High landscape and reversible stroller

Highlandscape shock absorption Pass EN-1888/ OEKO-TEX fabric, Lightweight/one-button folding, 5-point seat belt/two-way seat

Highlights

BBL5021SE/93

High landscape view

The height of baby's view can reach 100cm, away from the exhaust gas of the car, and the accidental fright.

Four-wheel suspension

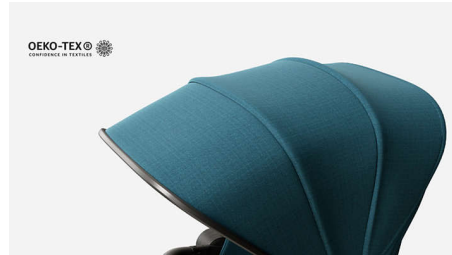

All four wheels are equipped with shock absorption springs, conducive to smooth pushing and less bumpy feeling.

Pass EN-1888 regulations

Passed the strict standard test of EN-1888 newly promulgated by the European Union for baby strollers, and its quality and performance can be assured.

OEKO-TEX certified fabric

Select authoritative certified textile ecological fabrics, and test various harmful substances to ensure the health and harmlessness of textiles, making babies more comfortable and parents more assured.

Lightweight

The body is made of lightweight aviation alloy materials, and the net weight of the vehicle is 6.9kg, which can be carried by mothers with one hand.

One-button folding

Folding with one hand, convenient and quickMom can operate when holding the baby.

Five-point seat belt

The five-point safety belt buckle is made of magnetic material, which is safe, stable and easier to operate.

Two-way seat mode

Integrated fully wrapped seat, forward viewing mode, backward parent-child interaction mode, two-way adjustment is more convenient.

170° large reclining angle

The seat angle can be adjusted in three positions, 105 for scientific sitting, 145 for half-lying rest, and 170 for comfortable lying down.

High landscape and reversible stroller

Highlandscape shock absorption Pass EN-1888/ OEKO-TEX fabric, Lightweight/one-button folding, 5-point seat belt/two-way seat
