Enjoy superior brightness for a safer drive

Superior brightness, a safer drive

For unmatched visual comfort and safer driving, choose Philips Ultinon Pro7000 LED signalling bulbs. In exterior applications, their vibrant colours and crisp, amber light instantly improve driver visibility and well-being.

Superior visibility

- Signal your intent with brighter exterior lighting
- Instant safety information for other drivers
- Ergonomic design with three-LED array

High-end, stylish signalling

- Upgrade your lights, upgrade your style

Performance made to last

- Enhanced lifetime of up to 5,000 hours
- Enhanced lifetime of up to 5,000 hours

Simple plug-and-play replacement

- Easy to install and compatible with most car models
- Electrical compatibility with most vehicles

Highlights

Powerful brightness

Signalling the intended movement of your vehicle is vital to your safety. To avoid collisions, other people have to know what you're doing. And when poor weather reduces visibility, the need for bright and vibrant signalling becomes even greater. Philips Ultinon Pro7000 LED signalling lights provide you with bright and intense amber lighting for your side repeaters. Your car says a lot about you, so make a style statement with Philips LED signalling lights.

Instant-on technology

Compared to incandescent lamps, the Philips Ultinon Pro7000 LEDs light up instantly to ensure that other drivers can react faster, keeping you safer.

Uniform light distribution

For your turn indicators and side repeaters, the Philips Ultinon Pro7000 LED gives you uniform light distribution. Its wide angle ensures that the light is projected where you need it.

Elegant LED light

While the main goal of exterior lighting is to help you see and be seen, there's no reason why you shouldn't look good at the same time. If you want to upgrade your style without buying a newer car, replacing your exterior lighting with Philips Ultinon Pro7000 LED lights is a smart way to spend your money.

Lifetime of up to 5,000 hours

You want bright, stylish car lights but you don't want to keep replacing failed lamps. That's a major weakness of conventional bulbs — the

more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro7000 LED lights are built to last. Due to features such as high-end LED technology and advanced heat-management systems, they last for up to 5000 hours of operation and are covered by a 3-year warranty*.

Lifetime of up to 5,000 hours

You want bright, stylish car lights but you don't want to keep replacing failed lamps. That's a major weakness of conventional bulbs — the more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro7000 LED lights are built to last. Due to features such as high-end LED technology and advanced heat-management systems, they last for up to 5000 hours of operation.

Ready, steady, installed!

Enjoy the plug-and-play experience: with the Philips Ultinon Pro7000, bulb replacement is quick and easy.

Electrical compatibility with most vehicles

LED retrofit and conventional bulbs differ from one another in terms of wattage, composition and power consumption. Replacing your conventional bulbs with other LEDs may prove problematic. Philips Ultinon Pro7000 bulbs are electrically compatible with most cars. Additional adapters are available as accessories for troubleshooting if needed. We sell a complete solution.

Specifications

Marketing specifications

Product highlight: Automotive Grade LED
Powerful brightness Uniform light distribution
Expected benefits: Brighter, elegant signals

Product description

Application: Side repeaters
Base: W2.1 x 9.5d
Designation: WY5 W LED 12202 AU70 12 V X2
Designation LED Type: LED-AMBER [≈WY5 W]
ECE certification: NO
Range: Ultinon Pro7000
Technology: LED
Type: WY5W
Voltage: 12 V

Lifetime

Life time: 5000 hrs

Light characteristics

Lumens: 13
Colour temperature: Amber

Electrical characteristics

Voltage: 12 V
Wattage: 0.5 W
