PHILIPS

Highlights

Anti-overflow valve

The anti-overflow valve prevents water overflow in case of overdosed water input, ensuring a smooth cooking experience.

18 optimized programs with seamless UI

Our rice cooker's seamless user interface enables you to select from a menu of 18 effortless meal-occasion programs with one-touch simplicity.

Smart 3D heating system for powerful heat energy

Plate heaters installed at the top, side and bottom produce powerful heat energy, guaranteeing a refreshing, aromatic taste with every rice grain.

Keep Warm function for the perfect temperature eve

Our handy Keep Warm function means you can have your rice whenever you're ready. When activated, your cooked grains will stay fresh, fluffy and at the perfect temperature for up to 24 hours.

Intelligent cooking curve

Smartly control the temperature and duration of different cooking stages based on your chosen rice type and texture. Let the smart temperature sensors monitor and optimize heat energy to deliver the perfect aroma, flavor and mouth-feel.

6-layer Alloy inner pot with Maifanshi coating

Maifanshi coating boasts non-toxicity and up to 6x improved scratch resistance*. Integrated with other inner pot coating materials such as alloy and ceramic, it allows you to cook with ease and ensure a great result.
