PHILIPS

Body groomer & trimmer

Skin contour system Integrated comb, 3-11 mm, 50 min cordless use per charge, 100% waterproof

Highlights

Skin contour system

The skin contour system catches and cut hairs of different lengths, without the need for multiple tools or skin contact with sharp edges. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result. The added flexibility of the contour system follows every angle and surface of your body for precisely the look you want.

Skin-friendly tips and foil

The skin comfort system features a hypoallergenic foil and rounded tips to protect your skin while shaving.

Integrated trimmer with comb

The integrated trimmer and adjustable comb with 5 length settings are designed to offer more power to cut even the thickest hair. To maintain your desired hair length or get a natural look, adjust the comb to a length between 3 and 11 mm. You can use the shaving system on the other side for a closer result.

Rechargeable battery power

High-power NiMH battery for full-body use, with 50 minutes of cordless use after an 8-hour charge. The battery light indicates power status when the battery is low or full.

100% showerproof

Provides a comfortable and close result in and out of the shower. The body groomer is 100% showerproof, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

Ergonomic grip

Your body groomer is easy to hold and manoeuvre, with a rubber ergonomic grip to help you keep control while you trim.

Built to last

We back this Philips body groomer with a 5-year warranty offer. Simply register your trimmer on www.philips.co.uk/myphilips to receive an additional 3 years' warranty, giving you a 5-year worldwide warranty in total. Our grooming products are built to last. You'll never need to oil it, and it's compatible with all worldwide voltages.
