Highlights

Integrated grinder

Integrated conical burr grinder to customize coarseness and unleash full aroma of your beans. You can also switch it off to use readymade coffee grounds.

All-in-1 Brew

All-in-1 Brew lets you brew in the glass or thermal jug, directly into your favorite cup*, mug*, or tumbler** to sip on the-go as you drive to work.

Smart Dosing

Smart Dosing ensures perfect water to coffee ratio with every brew, eliminating guesswork and allowing less refills. Always get the best coffee, never watery or sour.

Detachable Duo-bean container

Detachable duo-bean container with Aroma Seal lets you store and mix two different blends together. You also switch between decaf and normal. It is easy to clean - also thanks to included brush - and easy to refill.

Permanent filter

Permanent filter can be reused brew after brew. It ensures perfect extraction time for optimal aroma and taste. It eliminates the need to use disposable paper filters.

Detachable water tank

No need to refill the water at every brewing thanks to Smart Dosing. And when you do refill, 10-cup water tank with easy-to-read levels has internal handle so that it can be conveniently removed from the appliance and positioned under the sink.

Coffee for all seasons

Coffee for all seasons! Enjoy your coffee warm during the winter, or brew it over ice to cool your summer days.

Space-saving design

Easily fits between countertop and cupboard thanks to premium space-saving design without compromising on capacity.

Settings and LED display

Easy-to-read LED display. You can adjust intensity (1-3), number of cups (from 1 to 10) and coarseness level. Enjoy coffee just the way you like it at a perfect brewing temperature.
