

Philips Ultinon Pro7000 SI
Car and truck signaling
bulb

LED-WHITE [≈W16W]

Number of bulbs: 1
12/24V, 6000 K Cool White
Advanced automotive system

LUM11067CU70X1/20

Enjoy lasting brightness for a safer drive.

Brighter, elegant signals

For a stylish drive, upgrade to Philips Ultinon Pro7000 LED [≈W16W] reverse and rear fog lights. They are bright and elegant so you can see clearly and be seen clearly, helping you drive safely and stylishly.

Superior visibility for safer driving

- Signal your intent with brighter exterior lighting
- Optimized for enhanced visibility
- Ergonomic design with 360° beam pattern

High-end, stylish signaling

- Upgrade your lights, upgrade your style.

Performance made to last

- Enhanced lifetime of up to 5,000 hours
- Aluminum heatsink to dissipate heat more efficiently

Simple plug-and-play replacement

- Easy to install and compatible with most car models
- Constant IC driver ensures electrical compatibility with mos
- Easy to install on your car

PHILIPS

Highlights

Powerful brightness

Signaling the intended movement of your vehicle is vital to your safety. To avoid collisions, other people need to know what you're doing. And when poor weather reduces visibility, the need for bright and vibrant signaling becomes even greater. Philips Ultinon Pro7000 LED signaling lights provide you with a bright daylight effect plus up to 7000 K for reversing to improve visibility at the rear. Your car says a lot about you, so make a style statement with Philips LED signaling lights.

Uniform light distribution

For reverse lights, the Philips Ultinon Pro7000 LED gives you uniform light distribution. Its wide angle ensures that the light is projected where you need it.

Uniform light distribution

For your turn indicator, reverse, rear fog and stop signals, the Philips Ultinon Pro7000 LED gives you uniform light distribution. Its 360° angle ensures that the light is projected where you need it. Not only can you see more of the road, but other drivers can also see more of you.

Elegant LED light

While the main goal of exterior lighting is to help you see and be seen, there's no reason why you shouldn't look good at the same time. If you're wanting to upgrade your style without buying a newer car, replacing your exterior lighting with Philips Ultinon Pro7000 LED signals is a smart way to spend your money.

Lifetime of up to 5,000 hours

You want bright, stylish car lights but you don't want to keep replacing failed lamps. That's a major weakness of conventional bulbs - the more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro7000 LED lights are built to last. Due to features

such as high-end LED technology and advanced heat-management systems, they last for up to 5,000 hours of operation.

Super-robust lamps with aluminum material

When operating, LEDs generate heat which reduces their brightness and overall lifespan. Philips Ultinon Pro7000 LED lights feature an aluminum heatsink which dissipates heat much faster than the plastic material used by low-cost, inferior-quality bulbs. That makes our lamps more robust and longer-lasting.

Ready, steady, installed!

Enjoy the plug-and-play experience: Philips Ultinon Pro7000 LED lights use the same standard caps as the conventional lamps on your car, enabling you to upgrade with no modification needed, so replacement is easy and quick.

Electrical compatibility with most cars and trucks

LED retrofit and conventional bulbs differ from one another in terms of wattage, composition, and power consumption. Replacing your conventional bulbs with other LEDs may prove problematic. Thanks to the built-in constant IC driver, Philips Ultinon Pro7000 bulbs can work within 9-32 volt systems and are electrically compatible with most cars and trucks. Canbus adapters are available as accessories for troubleshooting if needed. We sell a complete solution.

Polarity-free design

Enjoy the plug-and-play experience: the Philips Ultinon Pro7000 comes with polarity-free design, so you don't need to worry about the polarity during installation. It will save you time and make installation easier.

Specifications

Marketing specifications

- Product highlight: Polarity-free, Automotive Grade LED, Powerful brightness, Uniform light distribution
- Expected benefits: Brighter, elegant signals

Product description

- Application: Rear fog and reverse lights
- Base: W2,1x9,5d
- Designation: W16W LED white 11067 CU70 12/24V X1
- Homologation ECE: NO
- Range: Ultinon Pro7000 SI
- Technology: LED
- Type: LED-T16 [≈W16W]
- Voltage: 12V+24V V

Lifetime

- Life time: 5000 hrs

Light characteristics

- Color temperature: 6000 K
- Lumens: 350lm(12V) 370lm(24V)

Electrical characteristics

- Wattage: 2.5W(12V), 2.7W(24V) W
- Voltage: 12V+24V V

Ordering information

- Order entry: 11067CU70X1
- Ordering code: 72689230

Packaging Data

- EAN1: 6974260726892
- EAN3: 6974260726908
- Packaging type: X2

Packed product information

- Length: 7,0 cm
- Width: 2,5 cm
- Height: 11,5 cm
- Pack Quantity: 1 pcs
- MOQ (for professionals): 10 packs
- Gross weight per piece [g]: 30

Outerpack information

- Length: 19,5 cm
- Width: 15,5 cm
- Height: 8,5 cm
- Gross weight [kg]: 0,36

Issue date 2024-05-10

Version: 3.3.2

EAN: 69 74260 72689 2
