- Expected benefits: Brighter, elegant signals

Product description
- Application: Side repeaters
- Base: W2,1x9,5d
- Designation: WY5W LED 12202 AU70 12V X2
- Homologation ECE: NO
- Range: Ultinon Pro7000 SI
- Technology: LED
- Type: LED-AMB [≈WY5W]
- Voltage: 12 V

Lifetime
- Life time: 3000 hrs

Light characteristics
- Lumens: 13
- Color temperature: Amber

Electrical characteristics
- Wattage: 0.5W W
- Voltage: 12 V

Ordering information
- Order entry: 12202AU70X2
- Ordering code: 72719630

Packaging Data
- EAN1: 6974260727196
- EAN3: 6974260727202
- Packaging type: X2

Packed product information
- Length: 7,0 cm cm
- Width: 2,5 cm cm
- Height: 11,5 cm cm
- Pack Quantity: 2 pcs
- MOQ (for professionals): 10 packs
- Gross weight per piece [g]: 24

Outerpack information
- Length: 19,5 cm cm
- Width: 15,5 cm cm
- Height: 8,5 cm cm
- Gross weight [kg]: 0,30

Highlights

Powerful brightness
Signaling the intended movement of your vehicle is vital to your safety. To avoid collisions, other people need to know what youre doing. And when poor weather reduces visibility, the need for bright and vibrant signaling becomes even greater. Philips Ultinon Pro7000 LED signaling lights provide you with bright and intense amber lighting for your side repeaters. Your car says a lot about you, so make a style statement with Philips LED signaling lights.

Instant-on technology
Compared to incandescent lamps, Philips Ultinon Pro7000 LEDs light up instantly to ensure that other drivers can react faster, keeping you safer.

Uniform light distribution
For your turn signals and side repeaters, Philips Ultinon Pro7000 LED gives you uniform light distribution. Its wide angle ensures that the light is projected where you need it.

Elegant LED light
While the main goal of exterior lighting is to help you see and be seen, theres no reason why you shouldnt look good at the same time. If youre wanting to upgrade your style without buying a newer car, replacing your exterior lighting with Philips Ultinon Pro7000 LED signals is a smart way to spend your money.

Lifetime of up to 3,000 hours
You want bright, stylish car lights but you dont want to keep replacing failed lamps. That's a major weakness of conventional bulbs - the more powerful the light, the shorter its lifespan. Even at a higher light intensity, LEDs last much longer. Philips Ultinon Pro7000 LED lights are built to last. Due to features such as high-end LED technology and advanced heat-management systems, they last for up to 3,000 hours of operation.

Ready, steady, installed!
Enjoy the plug-and-play experience: with Philips Ultinon Pro7000, bulb replacement is quick and easy.

Electrical compatibility
LED retrofit and conventional bulbs differ from one another in terms of wattage, composition, and power consumption. Replacing your conventional bulbs with other LEDs may prove problematic. Philips Ultinon Pro7000 bulbs are electrically compatible with most cars. Additional adapters are available as accessories for troubleshooting if needed. We sell a complete solution.
